On January 11, 2016, at approximately 1300 hours, Detectives [REDACTED] and [REDACTED] were detailed 1702 San Fernando Road, in the city of San Fernando to assist in the investigation of an Officer Involved Shooting (OIS), involving two police officers employed by the city of San Fernando.

Detectives were briefed as to the sequence of events by San Fernando Police Detective [REDACTED]. At the conclusion of the briefing, Detectives [REDACTED] and [REDACTED] were asked to interview eight witnesses who were waiting to be interviewed at the San Fernando Police Department.

On January 11, 2016, at approximately 1613 hours, Detectives [REDACTED] and [REDACTED] interviewed Witness [REDACTED] [REDACTED]. The interview took place at the San Fernando Police Department Interview Room. San Fernando Police Detective [REDACTED] assisted detectives in the translation of the interview. Also present during the interview was Deputy District Attorney [REDACTED] and Investigator [REDACTED] from the District Attorney's Office.

The witness stated she was the front passenger in her sister's car. Her sister (Witness [REDACTED]) was the driver and they were stopped at the red light northbound Hubbard Street at San Fernando Road. She stated they were the second car at the light and were in the lane next to the gutter.

She saw the suspect's vehicle (black car NFD) traveling southbound and collide into a second vehicle. The suspect's car continued south and struck a pole on the southeast corner of Hubbard Street and San Fernando Road. She didn't know which direction the second car was traveling.

Seconds later she saw a police car arrive and park behind the suspect's car. She figured the police car was following the suspect's car because they arrived so fast. She saw one of the officers exit the patrol car and start to "talk" to the driver of the suspect's car. She was not sure what officer she saw, referring to the driver or passenger. She does not know what the officer was saying, but indicated the officer was speaking in English and was pointing his gun at the suspect's car. She stated her window was up. Her sister told her that the officer was asking the suspect to exit the car. She stated she never saw the suspect's car move after it hit the pole.

Her sister then told her to duck and told her that the suspect had a gun. She then heard 4 to 5 gunshots. She stated it was approximately one minute from the time the officers began giving orders to the time the shooting started.

She stated the two individuals in the second car remained in the car during the shooting.

The witness did not have any additional information and the interview was terminated.

On January 11, 2016, at approximately 1638 hours, Detectives [REDACTED] and [REDACTED] interviewed Witness [REDACTED]. The interview took place at the San Fernando Police Department Interview Room. Also present during the interview was Deputy District Attorney [REDACTED] and Investigator [REDACTED] from the District Attorney's Office.

The witness stated she was driving her 2009 Honda Accord, beige in color, northbound Hubbard Street. She said she was in the lane next to the gutter and was slowing down for a red light at San Fernando Road. She stated her sister, Witness [REDACTED] was with her seated in the front passenger seat. She stated there was a black Mercedes Benz in front of her.

She stated she saw a police car driving southbound Hubbard Street with its overhead lights on. She then saw two vehicles crash in the intersection. She stated the two cars that crashed were older and indicated that one was black and the other grey. She does not know what direction the two cars were traveling.

She stated there was one person in the grey car and two in the black car.

She stated the grey car that was involved in the crash continued southbound and struck a pole in front of the car dealership, on the southeast corner of Hubbard Street and San Fernando Road. The suspect's car was now facing south. The police arrived and the two officers exited the patrol car and started to give loud orders to the individual in the grey car. She was a bit confused but believes there were two officers who exited the patrol car and had their guns out. She could not hear what they were saying and

indicated her car windows were up.

She stated the male in the grey vehicle turned to his right and extended his arm back, over the seat. The suspect started shooting at the police officers through the rear window of his car. She tried to get down for cover, but the steering wheel was in her way. She stated she saw the suspect holding a black gun and saw the back windshield of the suspect's car breaking as the gunfire was occurring. She stated the officers returned fire. She stated there were two distinctive sounds when the gunfire was occurring. She added that some of the gunshots appeared muffled, as though they were coming from inside a car.

She stated once the shooting was over, she placed her car in park and turned the engine off. She stated several officers arrived on scene and provided first aid to the two occupants in the "black" car. She said one of the victims in the black car was holding his chest and the second was limping as they walked away from their car. She stated at the same time officers were still "talking" to the suspect. The suspect sat in the driver's seat looking forward and not moving.

She stated fire personnel arrived and the suspect was removed from his vehicle. She stated he was face down and was later turned face up. They then placed a white blanket over the suspect.

She stated she was approximately 40' to 50' away from the suspect's car as she made her observations. She stated she was watching the suspect through the suspect's vehicle front windshield.

The witness did not have any additional information and interview was terminated.

On January 11, 2016, at approximately 1719 hours, Detectives [REDACTED] and [REDACTED] interviewed Witness [REDACTED]. The interview took place at the San Fernando Police Department Interview Room. San Fernando Police Detective [REDACTED] assisted detectives in the translation of the interview. Also present during the interview was Deputy District Attorney [REDACTED] and Investigator [REDACTED] from the District Attorney's Office.

The witness stated she was driving in the family's green Toyota Camry with her husband, Witness [REDACTED], and daughter, Witness [REDACTED]. She stated Witness [REDACTED] was driving, Witness [REDACTED] was in the backseat and she was the front passenger seat. They were driving northbound on Hubbard Street, stopped at the red light at San Fernando Road (#1 lane). She stated they were the first car at the light.

She saw a beige vehicle traveling southbound Hubbard Street at a high rate of speed. She also saw a black car traveling eastbound through the intersection on a green light. The two cars crashed in the intersection when the beige car failed to stop for the red light.

The police arrived and parked behind the suspect's vehicle and began to give the suspect orders to stop. She saw the suspect turn to his right and extend his right arm over the driver's seat towards the officers. The suspect turned immediately after his car had come to a stop. In her mind and eyes she thought the suspect was holding a gun and was pointing it at the officers. Her husband told her that he didn't think the suspect was holding a gun and was only pointing his fingers, acting as though he had a gun in his hand. It should be noted that detectives had the witness demonstrate the suspect's movements.

She stated the police car arrived immediately after the crash and the officers exited their car with their guns pointed at the suspect. She remembers seeing five police officers on scene after the crash. She heard one of the officers yelling "stop, stop, stop." She said when the suspect turned and pointed his arm at the officers, she heard rapid gun fire. She could not tell Homicide Detectives how many gunshots she heard. She stated her window was down 2 or 3 inches. She also heard the officers tell the occupants in the second car to stay in their car. She said the driver of the black car was trying to exit the car.

After the gunfire stopped, she saw the suspect seated in the front seat motionless. Her husband told her the suspect deserved to be shot because of his actions. She stated she made her observations through the suspect's front side passenger window. She was looking to her right during the incident.

The witness did not have any additional information and the interview was terminated.

On January 11, 2016, at approximately 1752 hours, Detectives [REDACTED] and [REDACTED] interviewed Witness [REDACTED]. The interview took place at the San Fernando Police Department Interview Room. San Fernando Police Detective [REDACTED] assisted detectives in the translation of the interview. Also present during the interview was Deputy District Attorney [REDACTED] and Investigator [REDACTED] from the District Attorney's Office.

The witness stated he was driving his Toyota Camry northbound Hubbard Street at San Fernando Road. His wife, Witness [REDACTED] was the front passenger and his daughter, Witness [REDACTED] was seated behind his wife. They were the first vehicle at the intersection stopped at the red light. He was in the middle lane and indicated there was a car to his right and a car to his left.

He saw a black vehicle traveling eastbound on San Fernando Road, through Hubbard Street. He saw a Nissan Altima traveling southbound Hubbard Street and crash into the black car. He said the black car had the green light.

A police car arrived 10 to 15 seconds after the crash and parked behind the Nissan Altima. Two officers exited the patrol car and pointed their guns at the suspect. He could hear the occupants in the black car moaning in pain.

He could hear the police officers yelling "stay down, stay down." The suspect turned sideways and extended his arm back towards the officers and acted as though he (suspect) had a gun, pointing with his index finger. He made these movements after the officers arrived. At first the witness thought the suspect had a gun, but later realized it was only the suspect's index finger.

He stated when the suspect pointed at the officers, the officers shot at the suspect. He stated he heard numerous rapid gunshots and could not provide an amount. He did not know what officers were shooting. He then saw an unmarked detective car arrive and park. He told his family to get down and take cover. After the shooting he saw the suspect seated in the driver's seat with his mouth open. He made these observations through the suspect's rear passenger side, rear window.

He said minutes later, officers approached the suspect's car. He could hear the officers say something, but does not know what they were saying.

He stated he left his car at the scene and was transported to the station. He doesn't think any of the civilian cars moved after the shooting.

The witness did not have any additional information and the interview was terminated.

On January 11, 2016, at approximately 1830 hours, Detectives [REDACTED] and [REDACTED] interviewed Witness [REDACTED]. The interview took place at the San Fernando Police Department Interview Room. Also present during the interview was Deputy District Attorney [REDACTED] and Investigator [REDACTED] from the District Attorney's Office.

Witness [REDACTED] stated she was in driving in a car with her mother and father (Witnesses [REDACTED] and [REDACTED]). She was seated in the back seat, directly behind her mother who was seated in the front passenger seat. She stated she was looking down while texting on her phone. She said they were stopped at the red light northbound Hubbard Street at San Fernando Road, in the number #1 lane.

She said she heard tires screeching and looked up. She saw the "good car"

(describing a black vehicle) making a legal left turn towards Truman Street and the "bad car" (describing a champagne color, Nissan Altima) driving through the red light. She stated she could not remember which way the two cars were driving prior to the crash.

After the collision the "bad" car continued southbound towards the car dealership. She stated she saw the police car arrive and park behind the suspect's car. She saw two officers exit the patrol car and stand in the apex of the front driver's door and front passenger's door. She heard one of the officers yelling what she thought was the word "stop." She saw the "bad" vehicle start to drive in reverse, at which time both officers began to shoot. She stated in her mind she initially thought the suspect had a gun when she heard her mother say that the suspect had a gun. Her father would later tell her that the suspect was pointing his finger and did not actually have a gun.

She stated when the shooting began, her father told her to get down. She stated she heard approximately ten gunshots that were rapid and all the same volume. She saw both officers shooting their guns before she ducked down. She stated she heard numerous gunshots, estimating ten. After the shooting she saw an undercover detective car arrive and park behind the patrol car.

After the shooting she saw the suspect sitting motionless in the front driver's seat. A few minutes later fire department personnel arrived and they removed the suspect from his car. She stated she could hear the individuals in the "good car" moaning in pain.

The witness did not have any additional information and the interview was terminated.

On January 11, 2016, at approximately 1851 hours, Detectives [REDACTED] and [REDACTED] interviewed Witness [REDACTED]. The interview took place at the San Fernando Police Department Interview Room. Also present during the interview was Investigator [REDACTED] from the District Attorney's Office.

The witness stated he was stopped at the red light northbound Hubbard Street at San Fernando Road. He was driving his black Mercedes Benz and was in the lane next to the curb. He stated the windows on his car were partially open, but did not specify which windows.

He stated he saw a police car parked on Hubbard Street, in front of the pawnshop, north of San Fernando Road. He then saw a black car and a grey car collide in the intersection. The grey car hit the southeast corner of Hubbard Street and San Fernando Road. The Nissan Altima traveled south and struck a metal pole that was on the southeast corner of Hubbard Street and San Fernando Road.

Witness [REDACTED] saw the same police car arrive and park behind the grey car. The officers exited their car and stood in the apex of the vehicle's doors. The officers were

giving the suspect loud orders to "put your hands up." He saw the suspect turn to his right and point his hand and arm over the seat back towards the officers and was motioning as though he was holding a gun. He stated the suspect was saying something, but he could not hear him.

He then heard 8 to 9 gunshots and saw the impacts strike the suspect's car. The witness exited his car and took cover behind his vehicle. He could not tell what officers were firing their weapons. After the shooting stopped he saw the suspect lying back in his seat with his mouth open.

He was not sure what direction the vehicles that crashed were traveling, but believes the black car was traveling southbound. He stated the entire event happened very quickly.

The witness did not have any additional information and the interview was terminated.

On January 11, 2016, at approximately 1918 hours, Detectives [REDACTED] and [REDACTED] interviewed Witness [REDACTED]. The interview took place at the San Fernando Police Department Interview Room. Also present during the interview was Investigator [REDACTED] from the District Attorney's Office.

Witness [REDACTED] stated he was stopped in his black Honda Accord at the left turn lane northbound Hubbard Street to westbound San Fernando Road. He heard a crash in the intersection and saw the suspect's hit the southeast corner of Hubbard Street and San Fernando Road. He stated the suspect's car "bounced" back before it came to a stop.

He stated he saw the police car arrive and saw the officer's exit their car with their guns out. He heard one of the officer's yelling "put your hands up" several times. He then saw the suspect turn to his right and extend his right arm back towards the police officers. He could not tell if the suspect had anything in his hand because the suspect's hand was blocked by the car seat. He was making these observations through the suspect's passenger window. The witness thought the suspect might have had a gun and was going to shoot at the officers. When the suspect turned towards the officers, both officers began to shoot. The gunshots lasted 10 to 15 seconds.

The suspect was removed from his car by police officers. He stated he saw fire personnel treating the other two accident victims.

The witness did not have any additional information and the interview was terminated.

On January 11, 2016, at approximately 1938 hours, Detectives [REDACTED] and [REDACTED] interviewed Witness [REDACTED]. The interview took place at the San

JANUARY 13, 2016

- 9 -

016-00006-3199-013

Fernando Police Department Interview Room. Also present during the interview was Investigator [REDACTED] from the District Attorney's Office.

Witness Flores stated he was stopped at the red light northbound Hubbard Street at San Fernando Road. He was driving his Chevy Silverado Truck and was the second car in the number one lane. He stated the truck's windows were up and his radio was on.

He stated he saw the suspect's vehicle traveling southbound Hubbard Street and crash into a black vehicle that was traveling eastbound on San Fernando Road. He stated the suspect's car failed to stop for the red light. The suspect's car continued in a south direction and struck a pole that was on the southeast corner of Hubbard Street and San Fernando Road.

After the suspect's car came to a stop, Witness [REDACTED] saw the police car arrive and park behind the suspect's car. He then saw the suspect turn to the right and reach over the driver's seat with his right arm extended back towards the police officers. He heard a loud pop and thought the suspect had shot at the police officers. There was a short delay and then numerous gunshots. He stated the suspect was acting as though he had a gun, although the witness never actually saw a gun in his hand.

He stated he never saw the police officers fire their guns. He stated he could not hear any commands the officers may have given because his windows were up. When the shooting stopped, he saw the suspect lying motionless in the front seat.

After the shooting he moved his car one position north from where he made his observations. He stated a car that was in front of him at the time of the shooting left the scene. He would later say that his windows may have been open approximately 2".

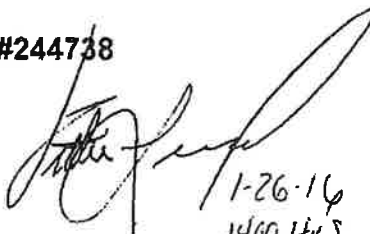

The witness did not have any additional information and the interview was terminated.

This investigation is continuing, with additional supplemental reports to follow.

STATEMENT OF PROBABLE CAUSE

1. Your affiant, a peace officer for the Los Angeles County Sheriff's Department, has been so employed for more than (24) years. Your affiant is assigned to Homicide Bureau, which is a specialized unit investigating both criminal and non-criminal deaths. Your affiant had previously been assigned to Safe Streets Bureau as a Gang Investigator for (5) years. Your affiant has investigated or assisted in the investigation of hundreds of assault and homicide cases, and has arrested a number of persons for these offenses. Your affiant has interviewed hundreds of suspects and witnesses regarding assault and homicide cases, and has questioned them concerning the manner in which they commit their crimes, dispose of or hide evidence, and avoid discovery by law enforcement in order to avoid prosecution. Your affiant has attended several post-mortem examinations (autopsies) and investigated numerous causes of death.

2. Your affiant and his partner, Homicide Detective [REDACTED] were assigned to investigate the circumstances surrounding an officer involved shooting on January 11, 2016, in the city of San Fernando, in the County of Los Angeles.

3. The suspect ([REDACTED] MW) intentionally drove his vehicle into a marked patrol unit and led the San Fernando Police Officers on a short pursuit.

4. The suspect struck another vehicle with two passengers inside and came to rest on the southeast corner of San Fernando Road and Hubbard Street.

5. The suspect disregarded verbal commands by the officers and turned and pointed an object at the officers causing both officers to discharge their firearms.

6. The suspect was killed as a result of the shooting.

7. Your affiant has been unable to locate any next of kin for the suspect.

RE: [REDACTED]  
CDC No.: [REDACTED]  
Discharge Date: 12/7/1991

Dear Sir/Madam:

In response to your request, please note the following:

- ☒ The requested documents are enclosed; all documents are the "Best Copy Available".
- ☐ We are unable to locate records based on the information provided. Please resubmit your request with additional identifying information, including the offender's CDCR Identification Number. You may contact the CDCR Identification Unit at (916) 445-6713 for assistance in obtaining the CDCR Identification Number.
- ☐ The Parole Case Records office maintains the records requested. Your request has been forwarded to the following address: 9160 Cleveland Ave., Rancho Cucamonga, CA 91730.
- ☐ The education information requested is not maintained within the Department of Corrections discharged Central File. You may send a request to the institution in which you were incarcerated when you received your training/certificate. Please address your correspondence to; Example: (Institution's Name and Address): Education Department, Principal.
- ☐ We are unable to locate a copy of the G.E.D. transcript requested. Please contact G.E.D. Testing Services on-line at [gedtestingservice.com](http://gedtestingservice.com). If you require assistance please call (877) 392-6433.
- ☐ The information requested has been deemed confidential based upon State and Federal law. Therefore, the information may only be released upon receipt of a signed release authorization by the offender, or by court order/subpoena/affidavit.
- ☐ This department no longer maintains the requested information as offender records are only maintained for 30 years following discharge at which time they are forwarded to the State Archives. You may submit your request to the State Archives at 1020 O Street, Sacramento, CA 95814, phone number (916) 653-2246.
- ☐ The Archives Unit does not maintain medical or psychiatric records. Your request has been forwarded to CDCR Health Records Center, P.O. Box 588500, Elk Grove, CA 95758, phone number (916) 229-0858, fax number (916) 229-0002.
- ☐ We are unable to provide information for CDCR number \_\_\_\_\_ because the individual was received at CDCR under this number pursuant to PC1203.03, as a temporary placement for diagnostic study only.
- ☐ We are unable to provide information for \_\_\_\_\_ because the individual was a youth offender committed to the Division of Juvenile Justice. CDCR Archives Unit only maintains discharged files for offenders committed to an adult institution. To obtain the records you are requesting contact the Division of Juvenile Justice, Ward Master Files: phone number (916) 683-7493, fax number (916) 683-7767.
- ☒ Other: Enclosed please find the Social Factors and CDC 127 In Case of Serious Illness, Accident, or Death Chrono.

If you have questions or require additional information, please contact me at (916) 358-1551.

Sincerely,

[REDACTED]

Lab Receipt Number(s): K544507 & K544508

Victim: Officers ██████ & Woodward

Subject: ██████

---

On January 11, 2016, at the request of Detectives ██████ and ██████ of the Los Angeles County Sheriff's Department Homicide Bureau, a field investigation was conducted at the intersection of San Fernando Rd. and Hubbard Ave., in the city of San Fernando. The request was to examine the scene, a Nissan Altima (CA license ██████), a BMW X5 (Vin ██████), and a San Fernando PD patrol car (CA license ██████) which were involved in the shooting. The request was also to document, determine bullet damage and trajectories, and collect any firearm related evidence.

**Observations**

The scene consisted of two damaged vehicles, and a patrol car located at the intersection of San Fernando Rd. and Hubbard Ave. The suspect's vehicle (Nissan Altima) exhibited numerous bullet holes in the rear of the vehicle, and a BMW X5 parked in a dealership lot, adjacent to the intersection, exhibited bullet damage. Numerous items of fired firearm evidence were observed throughout the scene.

**Scene Examination**

The following bullet hole was observed and assigned a corresponding letter (the Nissan Altima will be processed on a later date):

- U One bullet hole in the BMW X5 left rear passenger window. The bullet perforated the window and the sun shade curtain. The bullet traveled from left to right, and no further trajectories could be determined. A fired bullet was collected from the left rear window between the window and the sun shade curtain.

**Evidence Inventory**

The following evidence items were recovered at the scene:

- |                     |   |
|---------------------|---|
| Items 1 & 2         | Two fired 45 Auto caliber cartridge cases, collected from the center of the intersection behind the patrol car.               |
| Item 3              | One empty "Glock" magazine, collected from the center of the intersection behind the patrol car.                              |
| Item 4              | One 45 Auto caliber cartridge, collected from the center of the intersection behind the patrol car.                           |
| Items 6, through 9  | Four fired 45 Auto caliber cartridge cases, collected from the intersection east of the patrol car.                           |
| Item 10             | One fired 45 Auto caliber cartridge case, collected from on top of the patrol car driver's seat.                              |
| Items 11 through 20 | Ten fired 45 Auto caliber cartridge cases, collected from the intersection west of the patrol car.                            |
| Item 21             | One fired 45 Auto caliber cartridge case, collected from underneath the patrol car on the driver's side.                      |
| Item 22             | One fired 45 Auto caliber cartridge case, collected from the patrol car windshield cowl on the passenger's side.              |
| Item 23             | One fired 45 Auto caliber cartridge case, collected from the patrol car rear passenger's floorboard.                          |
| Item 24             | One fired bullet, collected from the street in front of the Toyota Corolla.   |
| Item 25             | One fired bullet, collected from the street east of the Nissan driver's door.   |
| Item 26             | One fired bullet, collected from the street west of the Nissan front end.   |
| Item 27             | One fired bullet, collected from the rear left passenger's window and sun shade screen area of BMW X5.                        |
| Items 28 & 29       | Two fired 45 Auto caliber cartridge cases, collected from on top of the patrol car's light bar on the right passenger's side. |

The following evidence items were received from at the scene by Detective [REDACTED]

- |           |   |
|-----------|---|
| Item FA-1 | One Glock model 21, 45 Auto caliber semiautomatic pistol with serial number XHF628. The pistol was received with one empty magazine and thirteen cartridges.  |
| Item FA-2 | One Glock model 21, 45 Auto caliber semiautomatic pistol with serial number XHF669. The pistol was received with two empty magazines and eighteen cartridges. |

**Evidence Disposition**

The following laboratory receipts were assigned:

**K544507** Items 1, 2, 4, 6 through 29

This laboratory receipt was submitted to the Evidence Control Section for firearm examination.

**K544508** Items 3, FA-1, and FA-2

This laboratory receipt was submitted to the Firearm Section for examination.

**Background on Scene Examinations Performed**

- Bullet hole/impact determination is performed through the examination of observable physical characteristics, the presence of chemical residues, and/or the presence of a bullet. The same concepts apply for defects caused by shotgun-related projectiles.
- A bullet's trajectory, or flight path, may be determined through an examination of the physical characteristics of a bullet hole or other damage indicative of the passage of a bullet. Bullet trajectory may be further defined when there are two or more points of contact or, alternatively, when a bullet passes through a sufficiently thick object. The same concepts apply for holes or other damage caused by shotgun-related projectiles.

Crime scene notes and supporting documentation exist in the case file at the laboratory and will be retained indefinitely.

Victim:

Subject:

Coroner's Case Number:

On January 11, 2016, at the request of Detectives [REDACTED] and [REDACTED] I responded to the intersection of Hubbard and Truman, San Fernando via Aero Bureau. The request was to assist detectives in the documentation of the scene via aerial photography pursuant to an officer involved shooting.

**Observations and Scene Examinations**

Location #1: Intersections of Hubbard/Truman and Hubbard/San Fernando  
Location #2: 910 First St., San Fernando (San Fernando P.D.)

I photographed the area from an aerial perspective to include the two intersections of location #1. In addition, I photographed Officer Woodward #10241 and Officer [REDACTED] #10402 at location #2.

**Evidence Disposition**

(2) CF cards submitted to Photo/Digital Imaging section for further processing.

**Requests for analysis can be submitted to the respective section supervisors.**

Crime scene notes and supporting documentation are kept in the case file at the laboratory and will be retained indefinitely.

---

This report is supplemental to a field investigation report issued by the undersigned. On January 13, 2016, a follow up vehicle examination was conducted at Black and White Tow, located at 10857 San Fernando Rd., in the city of Pacoima. The request was to examine a vehicle which was involved in a shooting, to document, determine bullet damage and trajectories, and collect any firearm related evidence.

**Observations**

The vehicle examined was a grey 1999 Nissan Altima (CA license [REDACTED]) the vehicle was observed inside the tow yard in a secure garage. The Nissan had numerous bullet holes in the rear and windshield area on the vehicle. The interior of the Nissan's trunk is full a miscellaneous items, and clothing.

**Scene Examination**

The following bullet holes were observed and assigned a corresponding letter:

- D & E Two bullet holes in the rear window. These bullets perforated the rear window, and traveled in a rear to front direction. No further trajectories could be determined.
- F One bullet hole in the center of the rear trunk. The bullet perforated the trunk and proceeded into the interior trunk compartment. The bullet traveled in a rear to front, right to left and slightly downward direction.
- G One bullet hole in the right side of rear trunk. The bullet perforated the trunk and proceeded into the interior trunk compartment. The bullet traveled in a rear to front, right to left and slightly downward direction.

(23)

- H One bullet hole in the center of the rear trunk adjacent to the "Nissan" logo. The bullet perforated the trunk and proceeded into the interior trunk compartment. The bullet traveled in a rear to front, right to left and slightly downward direction.
- I One bullet hole in the center of the rear trunk adjacent to the "Altima" logo and keyhole. The bullet perforated the trunk and proceeded into the interior trunk compartment. The bullet traveled in a rear to front, right to left and slightly downward direction.
- J & K Two bullet holes in the rear right turn signal light. These bullets perforated the turn signal light assembly and proceeded into the chassis. The bullets traveled in a rear to front, right to left and slightly downward direction.
- L One bullet hole in the rear right quarter panel. The bullet penetrated the quarter panel and proceeded into the chassis. The bullet traveled in a rear to front, right to left and slightly downward direction.
- M One bullet hole in the rear right quarter panel, adjacent to the rear wheel well. The bullet penetrated the quarter panel and proceeded into the chassis. The bullet traveled in a rear to front, right to left and slightly downward direction.
- N One bullet hole in the right side of the rear bumper. The bullet perforated the rear bumper. The bullet traveled in a rear to front, right to left and slightly downward direction.
- O One bullet hole in the right side of the rear bumper. The bullet perforated the rear bumper. The bullet traveled in a rear to front, right to left and downward direction.
- P One bullet hole in the lower right side of the rear bumper. The bullet perforated the bumper and proceeded to impact the muffler (P-1). The bullet traveled in a rear to front, right to left and downward direction.
- Q One bullet hole in the center of the rear bumper, adjacent to the license plate. The bullet perforated the bumper. The bullet traveled in a rear to front, right to left and downward direction.
- R One bullet hole in the center of the rear bumper, below the license plate. The bullet perforated the bumper. The bullet traveled in a rear to front, right to left and downward direction.
- S & T Two exit bullet holes in the windshield. These bullets perforated the windshield, and proceeded outward from the vehicle. No further trajectories could be determined.

**Evidence Inventory**

The following evidence items were collected from the vehicle:

- Item 30 Two fired bullets collected from the interior of trunk.
- Item 32 One fired bullet collected from the interior backrest of rear passenger's seat.
- Item 33 One fired bullet collected from the rear backrest of passenger's rear seat.
- Item 34 One fired bullet collected from on top of the rear passenger's seat.

**Evidence Disposition**

The following laboratory receipt was assigned:

K544519 Items 30, 32, 33, and 34

This laboratory receipt was submitted to the Evidence Control Section for firearm examination.

**Background on Scene Examinations Performed**

CRIME SCENE INVESTIGATION REPORT

**LATENT PRINTS SECTION**

2020 W. Beverly Boulevard  
Los Angeles CA, 90057  
Phone: (213) 989-2163  
FAX: (213) 413-7017

File Number: 016-00006-3199-013  
Agency: LASD Homicide Bureau  
Investigator: [REDACTED] #405666/[REDACTED] #280683  
Charge: 245 PC  
Report Date: February 11, 2016

Lab Receipt #:

Victim: Woodward, [REDACTED] San Fernando Police Department #10241  
[REDACTED] San Fernando Police Department #10402  
Subject: [REDACTED]; DOB: [REDACTED] Coroner's Case Number: 2016-00307

On January 11, 2016, at the request of Los Angeles Sheriff Department (LASD) Homicide Detectives [REDACTED] and [REDACTED] I responded to the intersection of Hubbard Street and San Fernando Road in the city of San Fernando. The request was to assist detectives in the documentation of the scene and collection of evidentiary items pursuant to an assault with a deadly weapon investigation upon San Fernando Police Department Officers that resulted in an officer involved shooting.

**Observations and Scene Examinations**

- **Location #1:** 1702 San Fernando Road, San Fernando
- **Location #2:** San Fernando Police Department at 910 1<sup>st</sup> Street, San Fernando
- **Vehicle #1:** Ford, Police Interceptor, black and white, (4) door, California exempt plate #1339885 (SFPD Officer patrol car #27)
- **Vehicle #2:** Nissan, Altima, Grey, (4) door, California license # [REDACTED] (Subject vehicle)
- **Vehicle #3:** Toyota Corolla, black, (4) door, California plate # [REDACTED] (Victim vehicle)

Prior to arrival, I contacted Detective [REDACTED] to facilitate aerial photography. Forensic Identification Specialist [REDACTED] #260199 was requested to conduct aerial photographs. She was also requested to respond to location #2 and take photographic documentation of the officers involved in the shooting. Please refer to her report for further information. Detective [REDACTED] also requested an additional Forensic Identification Specialist to assist with scene processing; [REDACTED] #614083 responded.

Upon arrival I met with Detective [REDACTED] who requested a firearms examination and Senior Criminalist [REDACTED] #233804 responded. Detective [REDACTED] then directed me to LASD Homicide Detectives [REDACTED] #195921 and [REDACTED] #526488, who would be handling the scene aspect of the investigation. I was then given a briefing of the incident and walk-through of the scene with Detectives [REDACTED] and [REDACTED]

The scene is in an open, commercial area in the city of San Fernando at the north/south running street of Hubbard Street, and the east/west running streets of Truman Street and San Fernando Road. Location #1 is the address to "Western Motor Sports" used car lot, where vehicle #2 and #3 came to rest after involved in a traffic collision. I observed vehicle #2 facing southwest, crashed into the corner

28

of Hubbard Street and San Fernando Road at location #1. Vehicle #3 was also facing southwest behind vehicle #2. Both vehicles had severe damage and were surrounded by broken vehicle debris. Vehicle #1 was facing the rear of vehicle #2, both the front driver and passenger doors were open, and was encircled by fired cartridge cases. Subject [REDACTED] was deceased and covered in a white sheet on the ground near the passenger side of vehicle #2.

At the direction of Detective [REDACTED] I marked evidence items EV-1 through EV-29 and EV-A through EV-C. I then took midrange and close-up photographs of the marked items. Forensic Identification Specialist [REDACTED] created a hand drawn sketch with scene measurements, including evidence locations. He also completed an evidence list.

Senior Criminalist [REDACTED] conducted a firearms examination and labeled the apparent bullet holes, EV-D through EV-U. Please refer to his report for further detail. I assisted with photographic documentation.

Los Angeles County Coroner Investigators responded to the scene. I took photographic documentation of Subject/Bartley's body including close-ups of visible wounds.

I assisted Senior Criminalist [REDACTED] in collection of the numbered evidence items. I packaged EV-5 and released custody to Detective [REDACTED] on scene. Senior Criminalist [REDACTED] took custody of evidence items EV-1 through EV-4, and EV-6 through EV-29. I transported two (2) compact flash memory cards to the LASD Crime Laboratory for processing.

#### Follow-up Investigation

- **Location #3:** "Arco" at 1753 Truman Street, San Fernando
- **Location #4:** "Black and White Tow" at 10857 San Fernando Road, Pacoima
- **Vehicle #2:** Nissan, Altima, Grey, California license # [REDACTED] [EV-C]

On January 13, 2016, at the request of LASD Homicide Detective [REDACTED] #526488, I responded to locations #3 and 4 to conduct additional documentation. The requests were to take daytime, video camera perspective photographs from location #3 and to conduct a vehicle examination at location #4.

At location #3, I took photographs from the approximate exterior video camera viewpoint located on the front of the Arco building facing toward Truman Street. I also took daytime photographs from various aspects at the intersection of San Fernando Road and Hubbard Street. I then responded to location #4.

Upon arrival to location #4, Senior Criminalist [REDACTED] was already on scene to continue a firearms examination on vehicle #2. Homicide Detective [REDACTED] #195921 also responded to location #4.

Vehicle #2 [EV-C] was located in an evidence storage garage. On the exterior, I observed apparent bullet holes labeled EV-D through EV-T, which were previously marked by Senior Criminalist [REDACTED] at location #1. There were also miscellaneous personal items throughout interior and a wooden stick/branch in the center console dash area.

I began overall exterior and interior photographs and assisted Criminalist [REDACTED] in photographic documentation including midrange and close-ups of firearms evidence items. Criminalist [REDACTED] located and took custody of evidence items EV-30, 32, 33, and 34. Detective Lillienfield collected and took custody of evidence item EV-31. Please refer to their reports for further detail and disposition. I transported one (1) compact flash memory card to the LASD Crime Laboratory for processing.

**Evidence Inventory**

## • January 11, 2016 - Scene:

EV-A: Ford, Police Interceptor, black and white, (4) door, California exempt plate #1339885 (SFPD Officer patrol car #27)

EV-B: Toyota Corolla, black, (4) door, California plate # [REDACTED] (Victim vehicle)

EV-C: Nissan, Altima, Grey, California plate # [REDACTED] (Subject vehicle)

EV-D through EV-T: apparent bullet holes in Subject vehicle #2 [EV-C]

EV-U: apparent bullet hole in vehicle: BMW, black, VIN: [REDACTED]

EV-1: Cartridge case, "Winchester 45 auto"

EV-2: Cartridge case, "Winchester 45 auto"

EV-3: Firearm magazine

EV-4: Live cartridge

EV-5: Handcuff key

EV-6: Cartridge case, "Winchester 45 auto"

EV-7: Cartridge case, "Winchester 45 auto"

EV-8: Cartridge case, "Winchester 45 auto"

EV-9: Cartridge case, "Winchester 45 auto"

EV-10: Cartridge case, "Winchester 45 auto"

EV-11: Cartridge case, "Winchester 45 auto"

EV-12: Cartridge case, "Winchester 45 auto"

EV-13: Cartridge case, "Winchester 45 auto"

EV-14: Cartridge case, "Winchester 45 auto"

EV-15: Cartridge case, "Winchester 45 auto"

EV-16: Cartridge case, "Winchester 45 auto"

EV-17: Cartridge case, "Winchester 45 auto"

EV-18: Cartridge case, "Winchester 45 auto"

EV-19: Cartridge case, "Winchester 45 auto"

EV-20: Cartridge case, "Winchester 45 auto"

EV-21: Cartridge case, "Winchester 45 auto"

EV-22: Cartridge case, "Winchester 45 auto"

EV-23: Cartridge case, "Winchester 45 auto"

EV-24: Bullet fragment

EV-25: Bullet fragment

EV-26: Bullet fragment

EV-27: Bullet fragment

EV-28: Cartridge case, "Winchester 45 auto"

EV-29: Cartridge case, "Winchester 45 auto"

Two (2) compact flash memory cards containing scene photographs

- January 13, 2016 – Follow-up investigation:

EV-30: Two (2) fired bullets  
EV-31: Wood branch/stick  
EV-32: Fired bullet  
EV-33: Fired bullet  
EV-34: Fired bullet

One (1) compact flash memory card containing daytime, camera perspective and vehicle examination photographs

**Evidence Disposition**

- January 11, 2016 – Location #1

EV-1 through EV-4 and EV-6 through EV-29 were taken into custody by Senior Criminalist [REDACTED]

EV-5 was released to Detective [REDACTED] on scene.

EV-A through EV-U were photographically documented only.

Two (2) compact flash memory cards were submitted to the Photo/Digital Imaging Unit

- January 13, 2016 – Location #3 and 4

EV-30, EV-32, EV-33, and EV-34 were taken into custody by Criminalist [REDACTED]

EV-31 was taken into custody by Detective [REDACTED]

EV-D through EV-U were photographically documented only.

One (1) compact flash memory card was submitted to Photo/Digital Imaging Unit

**Requests for analysis can be submitted to the respective section supervisors.**

Crime scene notes, rough sketches, and supporting documentation are kept in the case file at the laboratory and will be retained indefinitely. Specific measurements recorded at the scene are available in the case file upon request. Computer-aided crime scene diagrams are also available upon request to a Latent Print Section Supervisor.

I performed an autopsy on the body of   
at the DEPARTMENT OF MEDICAL EXAMINER-CORONER

Los Angeles, California

on JANUARY 14, 2016 @ 1100 HOURS

(Date)

(Time)

From the anatomic findings and pertinent history I ascribe the death to:

(A) GUNSHOT WOUND OF HEAD  
DUE TO OR AS A CONSEQUENCE OF

(B)  
DUE TO OR AS A CONSEQUENCE OF

(C)  
DUE TO OR AS A CONSEQUENCE OF

(D)

OTHER CONDITIONS CONTRIBUTING BUT NOT RELATED TO THE IMMEDIATE CAUSE OF DEATH

*Anatomic Summary :*

This 56-year-old Caucasian male identified as  was involved in an officer involved shooting. Reportedly Mr.  had backed into a police vehicle and then drove away. A pursuit began and Mr.  collided with a second vehicle again. An officer involved shooting then occurred on 01/11/2016 at approximately 1156 hours at 1702 San Fernando Board, San Fernando, California 91342. Death was pronounced on 01/11/2016 at 1207 hours by responding paramedics at the scene.

General Condition: 56-year-old Caucasian male 70 inches tall (5'10), weighing 172 pounds, well-built, well-nourished, and well-developed.

I. Gunshot wound of head:

A. Entry: Right temporal region, right posterior supra-peri-auricular region.

1. No soot,

2. No stippling.

3. Hair bearing region of the scalp.

B. Exit wound: There is no exit wound.

C. Projectile: A large caliber copper jacketed deformed bullet is recovered from the brain tissue at approximately 1140 hours.

D. Direction: The bullet is upwards (45 degree angle), right to left, and back to front (20 degree angle).

**(36)**

**12**Page 2**AUTOPSY REPORT**

No.

2016-00307  

E. Range of fire: Indeterminate.

F. Course:

1. Skin and superficial fascia, temporalis muscle and fascia, epicranial aponeurosis, skull (right parietal bone), dura mater, arachnoid, brain (parietal occipital temporal region) and left parietal region of the cerebral hemisphere, arachnoid, dura mater, skull (left parietal bone).

G. Note:

1. There is attendant subarachnoid hemorrhage of cerebral hemispheres, bilateral.
2. There is attendant comminuted fracture of the base of skull involving the sphenoid bone, right orbital fossa and occipital and right temporal bone.
3. This wound is considered rapidly fatal due to injuries to the skull and brain.

II. Toxicology:

- Refer to Toxicology Report.

## PRELIMINARY INFORMATION:

Please refer to Investigator's Case Report, Investigator's Narrative provided by  on 01/14/2016 at approximately 0230 hours.

## EXTERNAL EXAMINATION: Diagram 20-I

The body is identified by toe tags and is that of an unembalmed refrigerated adult Hispanic/Caucasian male who appears about the reported age of 56 years. The body weighs 172 pounds and measures 70 inches tall and is well-built, muscular, and fairly well-nourished. The skin is free of lacerations and/or burns. There are randomly distributed nonspecific abrasions and bruises that are described below. Wrist scars are not present. There are scars of the arms which are described below. Tattoos are present and identified below. Rigor has been altered in the upper and lower extremities. Livor mortis is fixed, posterior, and dorsal.

**12****AUTOPSY REPORT**

No.

2016-00307

Page 3

The head is normocephalic and covered with medium to light brown hair measuring 1 inch to 1-1/4 inches on the top of the head and has a curly pattern. There is a male pattern balding with receding hairline and some thinning. There is a full beard and mustache with an approximate hair length of 3/4 inches; 2 inches for the mustache and the beard has a hair length of approximately 1 to 1-1/2 inches and is medium brown.

Examination of the eyes reveals irides that appear brown in color and sclerae are congested. There are no petechial hemorrhages of the conjunctiva of the lids or episclera. The oronasal passages are unobstructed.

The upper and lower teeth are absent and compensated with upper and lower full denture plates. The neck is unremarkable. There is no chest deformity. There is no increased anterior-posterior diameter. The abdomen is flat and scaphoid. The genitalia are those of an adult mature circumcised male. The external genitalia are without trauma or lesions. The extremities show no edema, joint deformity, abnormal mobility, and no nontherapeutic punctures or needle track marks.

**EVIDENCE OF THERAPEUTIC INTERVENTION:**

There is no evidence of recent hospitalization or medical intervention. There are signs of cardiopulmonary resuscitation with some hemorrhage of the inner chest plate over the heart. There is no evidence of old surgery. No scars are present. There has been no postmortem intervention for organ procurement.

**IDENTIFYING FEATURES:**

1. Located on the left antecubital fossa of the left arm is a 3 inch vertical x 1-1/2 inches wide elongated well healed oval scar, Diagram 20-I.
2. Located on the left antecubital fossa are two diagonal thin linear scars 1 inch x 1/32 and 15-1/32 inches respectively, Diagram 20-I.
3. Located on the left anterior forearm are multiple linear scars measuring 2 inches vertical x 1/4 inches wide, 1-3/4 inches x 1/32 inches, 2 inches x 1/32 inches, 3 inches

**12****AUTOPSY REPORT**

No.

2016-00307  
Page 4

vertical x 1/32 inches, and 4 inches and 1/8 inches x 3/16 inches in maximal length and 1-1/2 inches x 1/32 inches in maximal diameter respectively, Diagram 20-I.

4. Located on the left mid wrist is a nonspecific small circumscribed 1/8 inch x 1/8 inch in maximal diameter, Diagram 20-I.
5. Scaling skin of heels, bilateral, Diagram 20-I

**EVIDENCE OF HANDCUFFS:**

Located on the right and left wrist is an impression consistent with a curl of a metal cuff that is removed during processing prior to this examination, Diagram 20.

**EVIDENCE OF EXTERNAL TRAUMATIC INJURIES:**

The conditions appearing in the Anatomic Summary and Description of Injuries are not necessarily repeated in the Systemic Review which in essence is a description of the decedent prior to sustaining injuries.

All diagrams and descriptions are made using the standard anatomic position at all times. When necessary for purposes of identification injuries are arbitrarily numbered, labeled, and listed with no attempt to indicate the order received. All conditions appearing in the Anatomic Summary and Description of Injuries are not necessarily repeated in the Systemic Review which in essence is a description of the decedent prior to sustaining injuries.

**I. Gunshot wound of head:**

- A. Entry: Right side of head, temporoparietal region of the scalp (hair bearing surface). Located on the right side of the head centered 2-1/2 inches from the top of head, 8-1/2 inches to the right along the contour of the head, 3-1/2 inches diagonal from the 10 o'clock axis of the right external auditory meatus, and 2 inches above the horizontal midline of the right external auditory meatus, and 2-3/4 inches to perpendicular right of the vertical midline of the right external auditory meatus is a Y-

**12**Page 5**AUTOPSY REPORT**

No.

2016-00307  

shaped entry wound 1-1/8 inches in length along the lower medial margin at approximately the 5 o'clock axis is a skin tag 3/8 inches x 3/8 inches in maximal diameter with an abraded surface. Along the lower margin is an abrasion skin tag 1/2 inch horizontal x 5/16 inches wide. At the 12 o'clock axis a 1/16 inch wide abrasion, at the 4 o'clock axis a 1/16 inch wide abrasion, and at the 10 o'clock axis is a less than 1/32 inch wide abrasion. The gunshot wound entry is orientated at approximately the 10 o'clock axis. Refer to Diagram 22-I. There is no soot or stippling present on the skin or hair.

- B. Exit wound: There is no exit wound.
- C. Projectile: A large caliber copper jacketed deformed bullet is recovered from the brain tissue.
- D. Range of fire: Indeterminate.
- E. Direction: The bullet is directed upwards (45 degree angle), right to left, and back to front (20 degree angle), Diagram 22-II.
- F. Structures perforated and trauma caused by gunshot wound #1:
  - 1. Skin and superficial fascia exhibiting perforation, loss of substance, and focal hemorrhage.
  - 2. Epicranial aponeurosis exhibiting perforation, loss of substance, and focal hemorrhage.
  - 3. Skull (parietal bone) exhibiting perforation, loss of substance, and fracture. The perforating defect has sharp internal beveling. The inner table measures 2.1 x 3.0 cm in maximal diameter, Diagram 28 and 34.
  - 4. Dura mater and arachnoid exhibiting perforation, loss of substance, and focal hemorrhage.
  - 5. Brain (parietal, occipital, temporal region of the brain) exhibiting laceration, loss of substance, and focal hemorrhage and exiting measuring 3.5 x 3.5 cm in maximal diameter with an exiting laceration on the parietal left side of the cerebral hemisphere 6.5 x 6.5 cm in maximal diameter. Surrounding the

**12****AUTOPSY REPORT**

No.

2016-00307

Page 6

- brain is attendant acute subarachnoid hemorrhage of the bilateral cerebral hemispheres, Diagram 29.
6. Arachnoid and dura mater exhibiting laceration, loss of substance, and focal hemorrhage.
  7. Skull (parietal bone) exhibiting fracture and displaced outward fracturing, Diagram 28 and 34. The outer table has external beveling and the defect measures 4.5 x 4.5 cm in diameter. The internal table defect measures approximately 2.5 x 3.0 cm in maximum diameter.
  8. Subcutaneous epicranial aponeurotic hemorrhage.
- G. Note this wound is considered rapidly fatal. As a result of this trauma there are radiating fractures of the calvarium and base of the skull, fracture line extending into the right frontal plate, the left side of the mid sphenoid bone, and right temporal fossa and left occipital fossa and bone.

**OTHER EVIDENCE OF TRAUMATIC INJURIES:****I. Evidence of craniocerebral trauma:**

- A. Located on the left forehead is an area of irregular red abrasion contusions with a diagonal orientation 5 inches diagonal x 1-1/2 inches at approximately the 2 o'clock axis, Diagram 22-I.
- B. Located on the midline forehead is a 13/16 inch vertical x 1/16 inch wide linear red abrasion contusion orientated at the 12 o'clock axis, Diagram 22-I.
- C. Located over the left eyebrow mid area is a 3/16 inches vertical x 1/8 inch wide red abrasion contusion, Diagram 22-I.
- D. Located over the right mid eyebrow, frontal region of the forehead is a 3/8 inch horizontal x 1/4 inch vertical red abrasion contusion, Diagram 22-I.
- E. Located on the bridge of the nose is a red abrasion contusion 1/2 inch x 1/2 inch in maximal diameter.
- F. Located on the right posterior parietal region of the head is a 1/8 inch x 1/8 inch in diameter red abrasion contusion centered 1-1/4 inches to the right of the posterior midline, Diagram 22-I.

(41)

**12**Page 7**AUTOPSY REPORT**

No.

2016-00307  

G. Located on the right lateral periorbital region are two red abrasion contusions 1/16 inches x 1/16 inches in maximal diameter, 1/8 inch x 1/8 inch in maximal diameter respectively, Diagram 22-I.

II. Evidence of blunt force trauma nonspecific to the back:

A. Located on the posterior mid back, T1 region is a 3/4 inch horizontal x 1/4 inch vertical red abrasion contusion centered 1/2 inch to the left of the posterior midline, Diagram 22-I.

III. Evidence of blunt force trauma to the extremities:

- A. Located on the back of the left hand, 3<sup>rd</sup> finger, proximal interphalangeal joint are two nonspecific red abrasion contusions 1/32 inches x 1/32 inches, and 1/32 inches x 1/32 inches in maximal diameter with serum crusting, Diagram 23.
- B. Located on the back of the right hand is an area of purple-red bruising 2-1/2 inches x 2-1/2 inches in maximal diameter, Diagram 23.
- C. Located on the back of the right hand, radial side of the hand is a linear red abrasion 1-1/2 inches vertical x 1/32 inches wide, Diagram 23.
- D. Located on the back of the right hand, 2<sup>nd</sup> finger, proximal phalangeal region are two nonspecific red abrasion contusions 1/32 inches x 1/32 inches, and 1/32 inches x 1/32 inches in maximal diameter respectively, Diagram 23.
- E. Located on the back of the right hand, 3<sup>rd</sup> finger, middle interphalangeal joint is a 1/8 inch x 1/8 inch in maximal diameter red abrasion contusion, Diagram 23.

IV. Evidence of blunt force trauma to the arms, upper extremities:

- A. Located on the left medial posterior elbow region is a red abrasion contusion 2 inches vertical x 1/2 inch horizontal, Diagram 20-II.

**12****AUTOPSY REPORT**

No.

2016-00307

Page 8

- B. Located on the back of the left arm, midline, elbow region is a purple contusion 2-1/2 inches vertical x 3/4 inches wide, Diagram 20-II.
- C. Located on the back of the left elbow, radial side is a 3/4 inch vertical x 1/4 inch wide red abrasion contusion, Diagram 20-II.
- D. Located on the back of the left hand, posterior wrist region is a 1/4 inch horizontal x 3/16 inches red abrasion contusion, Diagram 20-II.
- E. Located on the posterior left hand, radial side is a nonspecific red abrasion contusion 1/2 inch vertical x 3/16 inches wide, Diagram 20-II.
- F. Located on the proximal anterior mid left forearm are two red abrasion contusions 1/8 inch x 1/16 inches, 1/8 inch x 1/16 inches in maximal diameter orientated at the 2 o'clock axis, Diagram 20-II.
- G. Located on the posterior right elbow is a nonspecific red abrasion contusion 5/16 inches horizontal x 1/4 inch vertical, Diagram 20-II.
- H. Located on the posterior right mid forearm is a nonspecific linear red abrasion 1-3/4 inches x 1/16 inches in maximal diameter comprised of 5 irregular skip abrasions, Diagram 20-II.
- I. Located on the left anterior knee region is a red bruise 7/8 inches x 7/8 inches in maximal diameter, Diagram 20-II.
- J. Located on the left infra-knee region anterior lower leg is a 3/4 inch x 3/4 deep bruise, red, Diagram 20-II.
- K. Located on the left lower leg anterior crural region is a 3/4 inch x 3/4 inch red bruise, deep, Diagram 20-II.
- L. Located on the right anterior knee region is a red bruise 1-1/4 inches x 1-1/4 inches in maximal diameter, Diagram 20-II.
- M. Located on the right anterior medial leg region is a red bruise 1/2 inch x 1/2 inch in maximal diameter, Diagram 20-II.
- N. Located on the right wrist region is a furrow consistent with handcuffs encircling the right wrist, Diagram 20-I.

**CLOTHING:**

When seen by this Examiner, the decedent is unclothed and the clothing is not examined at the time of autopsy.

**43**

**12****AUTOPSY REPORT**

No.

2016-00307  
Page 9**INITIAL INCISION:**

The body cavities are entered through the standard coronal shaped incision, standard Y shaped incision. No additional incisions are made except for documentation of bruising of lower legs. No foreign material is present in the mouth, upper airways, and trachea.

**EVIDENCE OF INTERNAL INJURIES:**

Refer to description above.

**NECK:**

The neck organs are inspected in situ and removed en bloc with the tongue. No lesions are present nor is trauma of the gingiva, lips, or oral mucosa demonstrated. There is no edema of the larynx. Both hyoid bone and larynx are intact without fractures. No hemorrhage is present in the adjacent throat organs, investing fascia, strap muscles, thyroid, or visceral fascia. There are no prevertebral fascial hemorrhages. The tongue when sectioned shows no trauma or lesions.

**CHEST/ABDOMINAL CAVITY:**

The pleural cavities contain no collection of fluid or blood. No tension pneumothorax is demonstrated. The parietal pleura are intact. The lungs are atelectatic and subcrepitant and appear relatively well expanded. Soft tissues of the thoracic and abdominal walls have late postmortem softening, discoloration, and crepitation. The subcutaneous fat of the abdominal wall measures 3.5 cm in thickness and the chest wall fat measures 0.6 cm in thickness. The breasts are examined and sectioned in the usual manner and show no significant abnormality. The organs of the abdominal cavity have a normal arrangement and none are absent. There is no fluid collection. The peritoneal cavity is without evidence of peritonitis. There are no adhesions.

**44**

**12****AUTOPSY REPORT**

No.

2016-00307

Page 10SYSTEMIC AND ORGAN REVIEW

The following observations are limited to findings other than injuries if described above.

**MUSCULOSKELETAL SYSTEM:**

No significant abnormalities of the bony framework or muscles are present except for osteophytic changes of the vertebral thoracic column with osteophytic nodularity of the anterior vertebral bodies T10 and T11.

**CARDIOVASCULAR SYSTEM:**

The aorta is fairly elastic and of even caliber throughout with the vessels normally distributed from it. The abdominal/thoracic aorta has discrete yellow plaque formation, lipid streaking, and mild to moderate generalized atherosclerosis. There is no tortuosity or widening of the thoracic segment. The abdominal aorta has minimal to moderate atherosclerosis with significant focal patchy ulceration and calcifications and there are distributed yellow plaques. There is no dilation of the lower abdominal segment. No aneurysm is present. The major branches of the aorta show no significant abnormality.

Within the pericardial sac there is approximately 36 ml of serosanguineous fluid. The heart weighs 425 grams and has a slightly enlarged globular configuration. The right ventricular wall measures 0.2 to 0.3 cm in thickness. The left ventricular anterior wall measures 1.8 cm in thickness, the lateral wall measures 1.6 cm in thickness, and the posterior wall measures 1.7 cm in thickness. The septal wall measures 1.4 to 1.5 cm in average thickness. The chambers are normally developed without mural thrombosis. The valves are thin, leafy, and competent with minimal degenerative changes of the mitral valve leaflets and aortic valve leaflets.

Circumference of the valve rings are as follows: Tricuspid valve 13 cm, mitral valve 12 cm, aortic valve 6.5 cm and pulmonary valve 9 cm. There is no endocardial discoloration. There are no infarcts or lesions of the myocardium. There is an

**45**

**12****AUTOPSY REPORT**

No.

2016-00307  
Page 11

abnormality of the apices of the papillary musculature. There are no defects of the septum. The great vessels enter and leave in a normal fashion. The ductus arteriosus cannot be probed. The coronary ostia are patent. There is a normal pattern of coronary artery distribution. There is extensive atherosclerosis plaque formation and atherosclerotic narrowing of the major coronary arteries. The anterior branch of the left coronary artery shows approximately 70% eccentric atherosclerotic narrowing. The right coronary artery shows approximately 70% eccentric atherosclerotic narrowing. The circumflex branch shows mild to moderate generalized atherosclerosis. There is a stent (metal) of the left anterior proximal descending coronary artery. There is no thrombosis or occlusion of the major coronary arteries. No focal endocardial, valvular, or myocardial lesions are seen. The blood within the heart and large blood vessels is predominantly liquid.

**RESPIRATORY SYSTEM:**

Scant secretions are found in the lower bronchial and upper respiratory passages. The mucosa has pink-tan postmortem discoloration. The lungs are atelectatic and subcrepitant and there is dependent congestion and postmortem softening. The left lung weighs 725 grams; the right lung weighs 800 grams. The visceral pleura are smooth and intact. The parenchyma is congested and edematous. The pulmonary vasculature is without thromboembolism. No thromboemboli are present in the distal tertiary branches. No thromboemboli are present in the extrapulmonic portions of the pulmonary arteries.

**GASTROINTESTINAL SYSTEM:**

The esophagus is intact throughout. The stomach is not distended by food, air, or blood. The stomach contains approximately 20 ml of dark green thick fluid. The mucosa is pink-tan with normal rugae folds. No tablets or capsules can be discerned in the stomach contents. The external and in situ appearance of the small intestine and colon are unremarkable. The small intestine and colon are opened along the antimesenteric border and are unremarkable. The appendix is present. The pancreas occupies a normal position. There is no

**46**

**12****AUTOPSY REPORT**

No.

2016-00307  
Page 12

necrosis or trauma. The parenchyma is lobular and soft. The pancreatic ducts are not ectatic and there is no parenchymal calcification.

**HEPATOBIILIARY SYSTEM:**

The liver weighs 1600 grams and is of average size and red-brown. The capsule is intact. The consistency of the parenchyma is soft. The cut surface is smooth. A normal lobular arrangement is noted. The gallbladder is present. The wall is thin and pliable. The gallbladder contains approximately 20 ml of dark green viscid bile. There are no calculi. There is no obstruction or dilation of the extrahepatic ducts. The periportal lymph nodes are not enlarged.

**URINARY SYSTEM:**

The left kidney weighs 175 grams; the right kidney 150 grams. The kidneys are normally situated and the capsules strip easily revealing a red-brown smooth surface. The corticomedullary demarcation is preserved. The pyramids are not remarkable. The peripelvic fat is not increased. The ureters are without dilation or obstruction and pursue their normal course. The urinary bladder is trabeculated. It contains approximately 10 ml of yellow cloudy urine. The urine is tested by the dipstick method and is negative for glucose and ketones are 40 mg/dl.

**GENITAL SYSTEM (MALE):**

The prostate is slightly enlarged with some nodularity. Both testes are in the scrotum, are unremarkable, and normal size without trauma or lesions.

**HEMOLYMPHATIC SYSTEM:**

The spleen weighs 110 grams. It is of average size. The capsule is intact. The parenchyma is dark red and soft. There is no increased follicular pattern. Lymph nodes throughout the

(47)

**12****AUTOPSY REPORT**

No.

2016-00307  
Page 13

body are small and inconspicuous. The bone is not remarkable except for the degenerative changes of the thoracic column vertebral bodies which are described above. The bone marrow of the vertebrae and rib is dark red and moist.

**ENDOCRINE SYSTEM:**

The thyroid gland is unremarkable. The parathyroid glands are not identified. The adrenal glands are unremarkable. The thymus is unremarkable for age. The pituitary gland is normal size and unremarkable.

**SPECIAL SENSES:**

The eyes, middle, and inner ears are not dissected or removed.

**HEAD AND CENTRAL NERVOUS SYSTEM:**

There is subcutaneous and subgaleal hemorrhage in the scalp associated with the gunshot wound injuries. The external periosteum and dura mater are stripped showing no fractures of the calvarium or base of the skull. There are tears of the dura mater due to the gunshot wound injury and fracturing. There is subdural and acute subarachnoid hemorrhage of the cerebral hemispheres.

The brain weighs 1450 grams. The leptomeninges are thin and transparent. A relatively normal convolutionary pattern is observed on the untraumatized regions of the brain. Coronal sectioning demonstrates a uniformity of cortical gray thickness in the untraumatized regions. The cerebral hemispheres appear symmetrical. There is softening, discoloration, and hemorrhage of the white matter along the wound track path. There basal ganglia in areas of non-disruption are unremarkable. Anatomic landmarks in areas that are not traumatized are unremarkable. The ventricular system has appearance of a normal size without dilation or distortion. Pons, midbrain, medulla, and cerebellum are unremarkable. There is no evidence of uncal or cerebellar herniation. Vessels at the base of the brain have a normal pattern of distribution. The cranial nerves are disrupted at

**12****AUTOPSY REPORT**

No.

2016-00307  
[REDACTED]Page 14

the base of brain and appear to be unremarkable and symmetrical in size, location, and course. There is minimal atherosclerosis or atherosclerotic narrowing of the major cerebral arteries.

**HISTOLOGIC SECTIONS:**

Representative sections from various organs are preserved in four storage jars in 10% formalin.

**TOXICOLOGY:**

Bile, blood (heart, femoral), bile, liver, urine, stomach, and vitreous have been submitted to the lab and a homicide screen was requested.

**PHOTOGRAPHY:**

Photographs are taken prior to the course of the autopsy by [REDACTED] [REDACTED] Additional photographs are taken in the autopsy studio by [REDACTED] [REDACTED] Additional photographs are taken at the autopsy table showing the wound path and injuries to the head. The photographs are taken by [REDACTED] [REDACTED] and [REDACTED] [REDACTED]

**WITNESSES:**

Detective [REDACTED] and Detectives [REDACTED] and [REDACTED] both attended the autopsy.

**EVIDENCE:**

A large copper jacketed projectile is recovered from the head and deposited into evidence.

**12****AUTOPSY REPORT**

No.

2016-00307

Page 15**RADIOLOGY:**

1. A 14 x 17 x-ray plate of the head shows deformed fractures of the left parietal and right parietal region and a large metallic density to the right of midline in the center of the head.
2. A lateral view of the head shows fracturing and perforating defects of the skull as well as a large metallic density consistent with recovered projectile in the parietal region of the head region. There are no upper or lower teeth.
3. A digital view of the left chest and left upper shoulder and arms showed no metallic densities.
4. A digital view of the anterior posterior chest shows no retained metallic densities and normal heart silhouette and lung outline.
5. A digital view of the right shoulder, right chest, and right upper arm shows no retained metallic densities.

**OPINION:**

This 56-year-old Caucasian male identified as [REDACTED] died of a single gunshot wound to the head resulting in fatal injuries to the brain and skull.

After review of the circumstances and autopsy findings, the manner of death is homicide.

Analysis and Comments	Result	Units	Reporting Limit	Notes
Following a 60 mg oral dose (immediate-release tablet or syrup), mean peak plasma concentrations of 180 to 360 ng/mL were reported at 3 hours.				
Following a 120 mg oral dose (controlled-release capsule), mean peak plasma concentrations of 265 to 315 ng/mL were reported.				
Chronic administration of 360 mg/day (of a controlled-release preparation) resulted in mean steady-state plasma concentrations between 500 and 640 ng/mL over a 10-day period.				
Phenylpropanolamine Synonym(s): PPA; Norephedrine Phenylpropanolamine is a drug as well as the metabolite of Ephedrine.	None Detected	ng/mL	5.0	
Following a single 50 mg oral dose (immediate-release tablet), the mean peak plasma concentration was 180 ng/mL at 1 to 2 hours.				
Following a single 150 mg oral dose (sustained-release preparation), the mean peak plasma concentration was 280 ng/mL at 6 hours.				
Norpseudoephedrine Synonym(s): Cathine Norpseudoephedrine is a metabolite of Pseudoephedrine.	None Detected	ng/mL	5.0	
Amphetamine Amphetamine is a drug as well as the metabolite of Methamphetamine.	140	ng/mL	5.0	
Therapeutic Range (treatment of Narcolepsy or Attention Deficit Disorder) with doses between 10 and 30 mg daily: Mean peak plasma concentrations between 35 and 110 ng/mL.				
Phentermine Synonym(s): Pro-Fast®; Ionamin®; Adipex-P®	None Detected	ng/mL	10

Analysis and Comments	Result	Units	Reporting Limit	Notes
A single 26 mg/70 kg oral dose produced a mean peak blood concentration of 90 ng/mL at 4 hours, declining to 30 ng/mL after 40 hours.				
Adults receiving 30 mg daily oral doses for 2 weeks achieved a mean steady-state plasma concentration of 360 ng/mL (range 180 to 610 ng/mL).				
Methamphetamine	450	ng/mL	5.0	
Therapeutic Range (treatment of Obesity and Attention Deficit Disorder) following a 12.5 mg oral dose: Mean peak blood concentrations were 20 ng/mL at 2.5 hours.				
This test reports Methamphetamine as the total of the undifferentiated d and l enantiomers. The ratio of these enantiomers is important in determining whether the source of Methamphetamine is from over the counter medications, prescribed medication or controlled substances. Call lab for further information on d to l enantiomer ratio determination.				
MDA	None Detected	ng/mL	5.0	
Synonym(s): 3,4-Methylenedioxyamphetamine; Adam; MDMA Metabolite				
MDA is a metabolite of MDMA and methylenedioxyethylamphetamine (MDEA) and is abused for its central nervous system stimulant and hallucinogenic properties. The peak concentration of the MDA metabolite following a 110 mg dose of MDMA was reported as 28 ng/mL at 4 hours.				
The blood to plasma ratio of MDA is approximately 1.2 - 1.3				
MDMA	None Detected	ng/mL	5.0	
Synonym(s): 3,4-Methylenedioxymethamphetamine; Ecstasy				
Following a single 60 mg oral dose, the mean peak plasma concentration was 110 ng/mL at 2 hours.				
MDEA	None Detected	ng/mL	10	
Synonym(s): 3,4-methylenedioxyethylamphetamine; Eve

Analysis and Comments	Result	Units	Reporting Limit	Notes
A single oral 140 mg dose given to 6 adults produced peak plasma concentrations that averaged 260 ng/mL at 2.2 hours.				
Selegiline	None Detected	ng/mL	5.0	
Synonym(s): Eldepryl®				
A 10 mg oral dose given to 10 adults produced a mean peak plasma concentration of less than 10 ng/mL at 0.9 hours.				
Phendimetrazine	None Detected	ng/mL	10	
Synonym(s): Prelu-2®, Bontril®				
Following a single 35 mg oral dose (immediate-release preparation), serum concentrations averaged 90 ng/mL at 1 hour.				
Following a single 105 mg oral dose (sustained-release preparation), the mean peak serum concentration was 52 ng/mL at 1 hour.				
Phenmetrazine	None Detected	ng/mL	5.0	
Synonym(s): Preludin®				
Phenmetrazine is a drug as well as the metabolite of Phendimetrazine.				
Following a single 75 mg oral dose, mean peak plasma concentrations were reported to be 130 ng/mL at 2 hours, declining to 60 ng/mL after 12 hours.

## County of Los Angeles, Department of Coroner Investigator's Narrative

Case Number: 2016-00307

Decedent: [REDACTED]

### Information Sources:

LASD Homicide Detective [REDACTED] #195921, (323) 890-5500, File #016-00006-3199-013

### Investigation:

According to the Investigator's Case Assignment Form, on 01/11/2016 at 1323 hours Security Officer Zelaya from LASD Homicide reported this homicide (multiple gunshot wounds) death to Coroner Investigator [REDACTED] as a first call. Security Officer [REDACTED] reported: "Officer involved shooting involving San Fernando Police Department. The suspect backed into the police vehicle then hit additional vehicles. Pursuit began and the suspect hit police vehicle again. Officer involved shooting then occurred. The suspect pronounced dead at scene."

Coroner Lt. [REDACTED] assigned this field call on 01/11/2016 at 1820 hours. I arrived on scene with Coroner Investigator [REDACTED] at 1945 hours and completed the scene investigation at 2127 hours. Coroner Forensic Attendant [REDACTED] transported the decedent to the Department of Coroner.

The decedent's vehicle is a silver 4-door, 1999 Nissan Altima, license plate [REDACTED]. The vehicle was set to be towed by Black & White Towing of 10857 San Fernando Rd. Pacoima, CA. 91331. [REDACTED]

Second vehicle is a black 4-door, 2000 Toyota Corolla, license plate # [REDACTED]. The vehicle was set to be towed by Black & White Towing of [REDACTED] San Fernando Rd. Pacoima, CA. 91331. (818) [REDACTED]

### Location:

Injury: Vehicle - [REDACTED] San Fernando Rd. San Fernando, CA. 91340

Death: Street - [REDACTED] San Fernando Rd. San Fernando, CA. 91340

### Informant/Witness Statements:

I spoke with Detective [REDACTED] on scene. Information is preliminary as the investigation is ongoing. He told me that on 01/11/2016 at approximately 1156 hours the decedent was in his Nissan stopped at a red-light signal on westbound Hubbard St at Truman St. when 2 San Fernando P.D. officers in a marked police vehicle and 2 San Fernando P.D. officers in an unmarked police vehicle pulled up behind the Nissan. When the decedent noticed the police vehicle it is believed he panicked and backed his Nissan into the police vehicle. The decedent then ran the red light and continued westbound on Hubbard St. The police began to pursue the decedent. When the decedent was attempting to cross the intersection of Hubbard St and San Fernando Rd. he struck the Toyota. The Nissan came to a stop diagonal to the southwest corner of the intersection of Hubbard St and San Fernando Rd. The police stopped their vehicles in the middle of the intersection and ordered the decedent out of his car. The decedent refused to obey commands. The decedent started making arm movements and reaching for what was believed to be a weapon. Officers fired approximately 20 rounds from their Glock .45 caliber handguns. The Nissan was struck multiple times and the decedent remained in the Nissan. LACOFD responded. The decedent was removed from the driver's seat and placed in the prone position by paramedics. The decedent was handcuffed. Paramedics then placed the decedent in the supine position and pronounced death on scene on 01/11/2016 at 1207 hours. The incident was witnessed. There was no weapon found/recovered from the decedent or decedent's vehicle.

### Scene Description:

The location of the shooting is the intersection of Hubbard St and San Fernando Rd. This is a business area. Hubbard St. is a five lane street that runs east-west with two lanes in each direction. There is a middle turning lane separating opposing lanes of traffic. San Fernando Rd. is

County of Los Angeles, Department of Coroner  
Investigator's Narrative

Case Number: 2016-00307

Decedent: [REDACTED]

a five lane street that runs north-south with two lanes in each direction. There is a middle turning lane separating opposing lanes of traffic. The unmarked police vehicle is in the middle of the intersection approximately 30' from the southwest corner. The vehicle faces southwest. The marked police vehicle is approximately 15' from the southwest corner. The vehicle faces southwest. There are multiple LASD evidence markers around both sides of the marked police vehicle. The Toyota is located approximately 10' from the southwest corner in the southern crosswalk of the intersection and southbound lanes of San Fernando Rd. The Toyota faces west. There is extensive front end damage and the front windshield is cracked. The Nissan is located in the south crosswalk. The front two tires are against the curb of the southwest corner. The vehicle faces west. There is extensive front end damage. There are two circular defects on the top right side of the windshield. The back window is shattered. There are multiple circular defects to the rear end of the Nissan. There are LASD evidence marker rods indicating the location of the circular defects. There is glass and blood covering the upper left portion of the driver's seat. Multiple prescription medications are located in the center console. The decedent was originally located in the driver's seat and removed from the vehicle by paramedics. The decedent is no located approximately 2' south of the left side of the vehicle with his head toward the south and his feet toward the north.

**Evidence:**

On scene I collected a GSR Kit on 01/11/2016 at 2012 hours, a Hair Kit on 01/11/2016 at 2015 hours, and a Fingernail Kit on 01/11/2016 at 2020 hours. From the vehicle I collected clonidine, crestor, levothyroxine, lisinopril and metoprolol. I booked all at the Department of Coroner.

**Body Examination:**

I observed the decedent supine on the street. He is covered by a white paramedic sheet. His head is toward the south. His face is upward. Both wrists are handcuffed and both arms are extended and underneath his body. His right leg is extended and his right foot is toward the north. His left leg is extended and is crossed above the right leg at the right ankle. He is wearing a black shirt, blue pants, black underwear, grey socks, black shoes and a black belt.

A faded tattoo is observed on the left hand. No scars were observed.

An approximate 1/2" circular defect with exposed brain matter observed on the right side of the head approximately 3" behind the right ear.

The ambient temperature was 53.6 F at 2036 hours and the liver temperature was 91.4 F at 2040 hours.

Rigor mortis was rated at 4 throughout the decedent. Lividity was consistent with the supine position and blanched with firm finger pressure.

**Identification:**

LAFIS fingerprints identified the decedent as [REDACTED] on 01/12/2016 at 0206 hours.

**Next of Kin Notification:**

Next of kin not located/notified as of this report completion.

**Tissue Donation:**

Unknown.

**Autopsy Notification:**

LASD Homicide Detectives [REDACTED] and [REDACTED] and Senior Investigator [REDACTED] request 2-hour post notification. Confidential contact information is in case notes.

¿El difunto tiene hijos menores de edad vivientes? ☐ SI ☒ NO  
¿El difunto tiene padres vivientes? ☐ SI ☒ NO

**HEALTH AND SAFETY CODE • § 7100 • CUSTODY AND DUTY OF INTERMENT**

**"WARNING: The person signing this Order for Release is liable for all damages caused by any untruthful statements contained in this document. (Health and Safety Code Section 7110). It is also a criminal offense to knowingly file a false statement with a government agency. (Penal Code Section 115 and 470)"**

The right to control the disposition of the remains of a deceased person unless other directions have been given by the decedent pursuant to Section 7100.1, vests in, and the duty of disposition and the liability for the reasonable cost of disposition of the remains devolves upon, the following in the order named: (1) An agent under a power of attorney for health care who has the right and duty of disposition under Division 4.7 (commencing with Section 4800) of the Probate Code; (2) The competent surviving spouse; (3) The sole surviving competent adult child of the decedent or, if there is more than one competent adult child of the decedent, the majority of the surviving competent adult children; (4) The surviving competent parent or parents of the decedent. If one of the surviving competent parents is absent, the remaining competent parent shall be vested with the rights and duties of this section after reasonable efforts have been unsuccessful in locating the absent surviving competent parent; (5) The sole surviving competent adult sibling of the decedent or, if there is more than one surviving competent adult sibling of the decedent, the majority of the surviving competent adult siblings; (6) The surviving competent adult person or persons respectively in the next degrees of kinship; (7) A conservator of the person or estate appointed under Part 3 (commencing with Section 1800) of Division 4 of the Probate Code when the decedent has sufficient assets; (8) The public administrator when the deceased has sufficient assets.

Therefore, please release the body upon completion of your death investigation of said deceased to:

**CÓDIGO SALUD Y SEGURIDAD • § 7100 • CUSTODIA Y OBLIGACIÓN DE ENTERRO**

**"AVISO: La persona que firma esta documento será responsable de su contenido y responderá por cualquier daño(s) producto de cualquier información falsa contenida en el mismo. (Sección 7110 Del Código De Salud y Seguridad) Además, es una ofensa criminal proveer información falsa a propósito a una entidad del gobierno. Código Penal Sección 115 y 470"**

El derecho a controlar la disposición de los restos de una persona fallecida, el deber de la disposición y la responsabilidad por el costo razonable de la disposición corresponde a los siguientes en el orden indicado abajo, a menos que otras direcciones hayan sido dadas por el difunto de acuerdo con la Sección 7100.1, y (1) Un agente con un poder notarial para decisiones de la salud, el cual tiene el derecho y el deber de la disposición conforme a la División 4.7 (comenzando con la Sección 4800) del Código de Sucesiones; (2) El cónyuge sobreviviente competente; (3) El único hijo sobreviviente adulto competente del difunto o, si hay más de un hijo adulto competente, el consenso de la mayoría de los hijos adultos sobrevivientes competentes; (4) El padre sobreviviente competente o a los padres del difunto. Si uno de los padres competentes supervivientes está ausente, el padre competente presente se le concederá a los derechos y deberes de esta sección siempre y cuando esfuerzos razonables para localizar al padre ausente no han tenido éxito; (5) El único hermano adulto sobreviviente competente del difunto o, si hay más de un hermano adulto sobreviviente competente del difunto, el consenso de la mayoría de los hermanos adultos sobrevivientes competentes; (6) El sobreviviente adulto competente o personas, en los grados de parentesco próximo; (7) Si el difunto tiene activos suficientes, un tutor del individuo o de la propiedad, designado de acuerdo a la parte 3 (comenzando con la Sección 1800) del 4º Capítulo del Código de Sucesiones; (8) El administrador público cuando el fallecido tiene activos suficientes.

Por lo tanto, tras la finalización de la investigación de la muerte del susodicho individuo, favor de entregar sus restos a:

Agency: San Fernando Police Department  
Officer ID/Name: 6490 \ [REDACTED]  
Date: 1/12/2016 2:10:00PM

Incident  
Incident Number: 16-0096  
Case Number: 16-0096

Narrative Title: 16-0096

Facts:

On Monday, January 11, 2016, at about 1156 hours, FTO Woodward #10241 and Officer [REDACTED] #10402 were working in full police uniform, assigned to a marked black and white police vehicle (1A27) for the San Fernando Police Department. Officer Woodward broadcasted, via police radio, that they were in pursuit of a vehicle that had just rammed their police vehicle. Officer Woodward broadcasted that the vehicle had collided and that they were holding a suspect at gun point. Officer Woodward requested back up units. Sgt. [REDACTED] #10054, Officer [REDACTED] #4050 and I ([REDACTED] #6490), all assigned to Patrol Division, responded to assist. Detective [REDACTED] #10243 and Detective [REDACTED] #10202, assigned to Detective Bureau, also responded to assist. Officer [REDACTED] 111 and Officer [REDACTED] 83, from the Los Angeles School Police (2J31), heard the request while scanning our frequency and responded as well. Officer Woodward upgraded the request to a, "Shots Fired," call and requested to have the Los Angeles Fire Department respond to the scene.

Officer's Investigation:

The responding units responded southbound on Hubbard Street to San Fernando Road. Sgt. Chiasson set up a containment team, which consisted of Officer Woodward, Officer [REDACTED], Officer [REDACTED], Detective [REDACTED], Sgt. [REDACTED] and I, around the suspect vehicle (1999 Nissan Altima, gold in color, license # [REDACTED]). In the driver's seat of the vehicle was a male Caucasian, later identified as the suspect ([REDACTED]), who appeared to be unconscious and nonresponsive. Sgt. [REDACTED] and I covered the suspect as Officer [REDACTED] opened the driver's door. Sgt. [REDACTED] and Officer [REDACTED] pulled the suspect out and laid him on the ground and because the suspect could still pose a threat to us I handcuffed him. Sgt. [REDACTED] and I checked the suspect in an attempt to render aid but he showed no signs of life. The Los Angeles Fire Department (91) arrived on scene and pronounced the suspect dead. In regards to the Officer Involved Shooting Investigation and the subsequent investigation, please refer to LASD case # 016-00006-3199-013.

During the pursuit, the suspect's vehicle collided with another vehicle (2000 Toyota Corolla, black in color, license # [REDACTED]) at the scene. Officer [REDACTED] and [REDACTED] tended to the driver and passenger of that vehicle. The driver was identified as [REDACTED] (DOB: [REDACTED]). The passenger was identified as Irie Gamez [REDACTED]. For their statements, please refer to the LASD Officer Involved Shooting Investigation.

A mutual aid request was put into effect and the following police agencies assisted with exterior perimeter security for the incident: Los Angeles Police Department, Los Angeles School Police Department, Glendale Police Department and Burbank Police Department. The Los Angeles Department of Transportation (DOT) also responded but never entered into the crime scene. Several San Fernando Police Officers were called in for this incident (see crime scene log for a complete listing of officers involved.)

The additional units not involved in the shooting or initial response were assigned to perimeter security for the crime scene. The Los Angeles Sheriff's Homicide Division was contacted and asked to respond to the scene to conduct an independent investigation of the Officer Involved Shooting.

Witnesses/Statements:

The following witnesses were identified. They were interviewed by the LASD Homicide Division and /or Det. Aguirre of the San Fernando Police Department, Homicide Investigator. Please refer to their supplemental reports for their statements.

---

Evidence:

All evidence collected at the scene was collected by the Los Angeles County Sheriff's Homicide unit and an LASD Crime Scene Investigator.

The suspect vehicle and the victim vehicle were part of the Officer Involved Shooting scene and were later impounded or stored. The suspect vehicle (1999 Nissan Altima, gold in color, license # [REDACTED] was impounded per 22655.5(b) VC. The victim's vehicle (2000 Toyota Corolla, black in color, license # [REDACTED] was stored per 22651(g) VC.

The suspect's body was removed by the Los Angeles County Coroner's Office. Please refer to their death investigation report # 2016-00307 for further details.

<b>SAN FERNANDO POLICE DEPARTMENT</b>		REPORT NO. 16-0096
CODE SECTION 245(c) PC	CRIME ADW on a P.O.	PAGE 1

On Monday, January 11, 2016 at approximately 1155 hours, I, Detective [REDACTED] (#10243) was working in plain clothes for the City of San Fernando Police Department, (10D). I responded Code-3 to the intersection of San Fernando Road and Hubbard Avenue regarding a radio call of a vehicle pursuit in progress. Officer Woodward, (#10241) broadcast that he and Officer [REDACTED] (#10402) were pursuing a vehicle that collided into their patrol car and was attempting to flee. As I began to respond, I heard Woodward broadcast, "Shots fired!" He advised that the suspect vehicle was facing south in the intersection of Hubbard Avenue and San Fernando Road with the suspect still inside.

I approached southbound on Hubbard Avenue from First Street and I saw officers Woodward and [REDACTED] standing behind the open doors of their patrol vehicle with their duty weapons pointed at the suspect vehicle. I positioned my unmarked car directly behind theirs and approached the driver door of the patrol vehicle. Officer [REDACTED] was standing behind the driver door with his service weapon pointed at the suspect vehicle, (Tan Nissan Altima, CA LIC# [REDACTED]). After confirming that [REDACTED] and Woodward were not injured, I took [REDACTED] position of cover while he and Woodward approached the suspect vehicle with several other responding officers. As they cleared the suspect vehicle, I took note of a second vehicle, (Black Toyota Corolla, CA LIC# [REDACTED]) with two occupants inside. The Corolla had significant front-end collision damage and was facing roughly southeast near the intersection. Both male occupants had their hands up and were yelling. Once the suspect was secured, I approached the black Corolla on the driver side and contacted the driver, (later identified as victim [REDACTED] a, DOB: [REDACTED]). He was bleeding from the mouth and nose and complained of severe chest pain. I helped him out of the vehicle and conducted a pat-down for weapons, finding none. I then escorted him to the north curb of San Fernando Road and obtained a brief statement prior to the arrival of paramedics. [REDACTED] told me he was driving in the area of San Fernando Road and Hubbard Avenue, but didn't remember exactly which direction he was driving or his intended destination. He remembered the suspect vehicle colliding into the front of his vehicle and he said he believes the suspect struck his car deliberately. Immediately after the collision, he heard several gunshots, but does not remember anything else. [REDACTED] complained of severe chest pain and told me he suffers from an unspecified heart condition. He repeatedly requested medical attention and I reassured him that paramedics had already been summoned and were en route. [REDACTED] can be reached for further statements at [REDACTED].

While I was attending to [REDACTED] Officer [REDACTED] (#1383) of the Los Angeles Unified School District Police Department assisted the passenger of the victim vehicle, (later identified as [REDACTED], DOB: [REDACTED]). [REDACTED] sustained minor abrasions to his head and right knee, but refused any medical treatment at the scene. [REDACTED] remained at the scene long enough to be interviewed, but declined to respond to the station for a formal interview. He told me [REDACTED] is his cousin and the two of them were driving westbound on San Fernando Road approaching the intersection with Hubbard Avenue. [REDACTED] was in the front passenger seat and had his head down just prior to the collision with the suspect vehicle. Suddenly, he heard his cousin scream and looked up just as they collided head-on with the suspect vehicle. [REDACTED] remembers being jostled around the car and striking his head on something. He remained in the car and then he saw a police car approach the

REPORTING OFFICER Detective [REDACTED]	[REDACTED]	[REDACTED]
---	------------	------------

<b>SAN FERNANDO POLICE DEPARTMENT</b>		REPORT NO. 16-0096
CODE SECTION 245(c) PC	CRIME ADW on a P.O.	PAGE 2

suspect vehicle. He heard the officers yell, "He has something in his hand! Don't get out of the car!" [REDACTED] then heard approximately 8 to 12 gunshots and he ducked his head, keeping his hands up. He then heard the officers yell, "It's still in his hand!" [REDACTED] remained in the passenger seat of the vehicle until a police officer escorted him out and over to the north curb. As he exited the vehicle, [REDACTED] saw police officers taking the suspect out of the driver side of the suspect vehicle. The suspect appeared to [REDACTED] to be dead and he saw the officers place him in handcuffs.

[REDACTED] complained of pain to his head and his right knee from abrasions sustained in the collision. He declined medical treatment each time it was offered and told me he did not wish to remain at the scene to be interviewed any further. He told me he is currently transient and does not have a permanent address, but he can be reached at his father's cell number, ([REDACTED], [REDACTED]).

After conducting interviews with victims [REDACTED] and [REDACTED] I conducted a canvass of the area to search for any victims of stray gunfire. No victims were located and nothing was reported to SFPD Dispatch.

Once the suspect was secured and the scene was adequately contained, I began conducting preliminary interviews of witnesses to the incident. The following people were interviewed at scene.

[REDACTED] (DOB: [REDACTED]) is the [REDACTED] located at [REDACTED]. At the time of the incident, he was sitting inside one of the vehicles on his lot and did not actually witness the collision or the shooting. He remembers hearing between 5 and 6 gunshots at which point he ran into his office for safety. [REDACTED] did not see any of the events that led up to the incident or anything that immediately followed. By the time he came out of his office and surveyed the scene, the suspect had already been taken out of his vehicle and handcuffed. [REDACTED] reported damage to one of the vehicles on his lot, (Black 2008 BMW X5) as a result of the shooting. The vehicle's left rear window was shattered after being struck. He reported no other damage to the business or any other vehicles on the lot. He can be reached at [REDACTED].

[REDACTED] (DOB: [REDACTED]) is the [REDACTED] and was sitting inside the office at her desk when the incident occurred. She did not witness the collision or the shooting, but heard approximately 10 gunshots and ran to the back of the business for safety. By the time she came outside, the suspect was out of his vehicle and the police were establishing a perimeter. She can be reached at [REDACTED].

[REDACTED] is an [REDACTED]. He was interviewed in Spanish by LAUSPD Officer [REDACTED] (#1111). [REDACTED] said he was standing outside washing one of the vehicles in the lot when he saw the suspect vehicle collide into the victim vehicle and then into a pole on the southeast corner of the intersection. He then saw the police officers exit their vehicle and draw their weapons, pointing them at the suspect vehicle. [REDACTED] ran through the lot towards the office for safety and he then heard approximately 5 gunshots. He did not actually witness the shooting because he had turned away from the incident when he ran towards the office.

REPORTING OFFICER Detective [REDACTED]	PSN 10243	DATE AND TIME 01/12/2016
---	--------------	-----------------------------

<b>SAN FERNANDO POLICE DEPARTMENT</b>		REPORT NO. 16-0096
CODE SECTION 245(c) PC	CRIME ADW on a P.O.	PAGE 3

██████████ primarily speaks Spanish and can be reached at ██████████.

██████████, (DOB: ██████████) was driving northbound on Hubbard Avenue approaching San Fernando Road when the incident occurred. His vehicle, (White 2002 Honda Civic, CA LIC# ██████████) was approximately 75 to 100 feet south of the intersection and was not close enough for Tapia to see the incident as it took place. He recalls seeing the suspect vehicle after it had already come to rest. He noted collision damage to the front of the vehicle and then he heard approximately 5 gunshots. ██████████ tried to reverse so he could get out of the way, but another car prevented him from doing so and he just put his head down until the shooting stopped. From his position he could not see the suspect, the officers or anything other than the front of the suspect vehicle. ██████████ declined to stay at the scene for a formal interview, but said he can be reached later at ██████████.

██████████, (DOB: ██████████) was seated in the passenger seat of ██████████'s vehicle when the incident occurred. He actually saw the suspect vehicle as it collided into the pole on the southeast corner of the intersection. As he attempted to get a better look at the incident, he heard approximately 8 gunshots and he then ducked to avoid being struck by gunfire. ██████████ did not see any other portion of the incident and declined to remain at the scene for a complete interview. He can be reached at ██████████.

██████████ (DOB: ██████████) was standing outside ██████████ located at ██████████ when the incident occurred. He heard the initial collision and began walking toward the scene to get a better look. He saw that there were two cars involved in a collision and he then saw a clearly marked police car approach the scene of the collision. He saw two officers get out of the police car and point their weapons at one of the vehicles involved in the collision. ██████████ speaks limited English, but he understood the officers to be yelling, "Don't move! Put your hands on the steering wheel!" He then saw the suspect reach over to the floor of the passenger side of the vehicle and then sit up. The suspect reached over to the passenger side floor a second time and sat up again as the officers continued to yell commands. After the suspect reached the second time, the officers began firing their weapons. ██████████ estimates the officers fired approximately 20 rounds in total. He then saw additional officers arrive and point their weapons at the two occupants of the black vehicle that was involved in the collision. He realized that the occupants of that vehicle were not suspects when the officers assisted them out of their vehicle and over to the curb. ██████████ said he only saw one occupant in the suspect vehicle. Afterwards, he returned to ██████████ and waited inside the store until he was interviewed. ██████████ does not have a consistent place of residence, but he can be reached at ██████████. He is reluctant to give any additional information and is concerned for his safety after having been interviewed.

██████████, (DOB: ██████████) is the owner of ██████████ located at ██████████. He was inside the service booth of the car wash at the time of the incident. The service booth does not have windows and ██████████ did not see anything leading up to the shooting. He recalls hearing approximately 5 to 6 gunshots and he came outside to investigate. He

REPORTING OFFICER Detective ██████████	██████████	██████████

<b>SAN FERNANDO POLICE DEPARTMENT</b>		REPORT NO. 16-0096
CODE SECTION 245(c) PC	CRIME ADW on a P.O.	PAGE 4

saw police officers pointing their weapons at two vehicles that appeared to have been involved in a collision. At that point he went back into the service booth for safety and did not see any more of the incident. B & F Car Wash has several functioning surveillance cameras which may have captured a portion of the incident. [REDACTED] is willing to grant access to the video footage and will be available in the morning on Thursday, January 14. He can be reached at 408-981-5069.

[REDACTED], (DOB: [REDACTED] 3) speaks only Spanish and was interviewed by San Fernando Police Officer [REDACTED] (#6490). [REDACTED] is the Attendant at B & F Car Wash and was also inside the service booth at the time of the incident. He did not see the events leading up to the shooting and he did not hear any gunshots because he was working on one of the motors inside the booth. He walked outside after [REDACTED] and saw police officers removing the suspect from his vehicle. [REDACTED] then went back inside the service booth and did not come out again until he was interviewed. He can be reached at 818-626-1277.

San Fernando Police Department Detective [REDACTED] (#10202) responded to Providence Holy Cross Medical Center to conduct a follow-up interview with [REDACTED] [REDACTED] who had been transported after the suspect collided with his vehicle. [REDACTED] recorded the interview in its entirety and completed a supplemental report containing the summary of his interview.

Prior to the arrival of LASD Homicide Detectives, I took a number of digital photographs depicting the scene as it appeared before any evidence could be moved by the wind or the arrival of additional responders. I also took digital photographs depicting the suspect, the vehicles involved, the injuries sustained by victim [REDACTED] and the damage to the BMW X5. Detective [REDACTED] took 4 digital photographs of a black Ford truck that appeared to have been struck by gunfire, but witness [REDACTED] [REDACTED] informed us that the damage to the Ford was not a result of the shooting and had already been noted prior to this incident. In total, I took 28 digital photographs and [REDACTED] took 4 digital photographs which were copied onto a CD and booked into evidence. See attached SFPD Evidence Log. A duplicate copy of the CD will be provided to LASD Homicide Detectives for reference.

<b>SAN FERNANDO POLICE DEPARTMENT</b>		REPORT NO. 16-0096
CODE SECTION 245(c) PC	CRIME ADW on a P.O.	PAGE 1

On Tuesday, January 12, 2016 at approximately 1330 hours, I, Detective [REDACTED] (#10243) was contacted by SFPD Officers [REDACTED] (#10206) and [REDACTED] (#7240) regarding two possible witnesses to an officer involved shooting that took place the previous day, (refer to SFPD DR# 16-0096). The officers indicated that the witnesses were standing in front of the [REDACTED] located at [REDACTED] and were in a hurry to leave.

I arrived at [REDACTED] and contacted witnesses [REDACTED], (DOB: [REDACTED]) and [REDACTED], (DOB: [REDACTED]) and obtained the following statements:

[REDACTED] told me she was standing on the southwest corner of the intersection of Hubbard Avenue and San Fernando Road when the incident occurred. This was confirmed upon review of the in-car video from the San Fernando Police vehicle. [REDACTED] her boyfriend, [REDACTED] and their baby daughter were walking to the bus stop from their temporary residence at the [REDACTED] located at [REDACTED]. [REDACTED] saw the suspect vehicle as it sped southbound on Hubbard Avenue and then she saw it turn eastbound onto San Fernando Road and collide into the victim vehicle, (black Toyota Corolla, CA LIC# [REDACTED]). [REDACTED] began approaching the vehicles to see if she could render aid and she then saw the marked police vehicle approaching the scene on Hubbard Avenue. She quickly realized that this was not just a traffic collision and she backed up a few steps to get out of the way.

As the police vehicle approached the suspect vehicle, she saw two officers exit their vehicle and draw their weapons. [REDACTED] specifically told me the officers "hopped out the car ready to shoot, but they didn't shoot." She heard the officers yelling commands for the suspect not to move. She then saw the male occupant of the suspect vehicle reach over his right shoulder and point a gun directly at the two officers. At that point, [REDACTED] turned and began running toward the parking lot of the [REDACTED] located at [REDACTED]. She heard two gunshots which she assumed to have been fired by the suspect. She then heard approximately 10 to 11 gunshots which she assumed were fired by the officers in response to the suspect. After the shooting stopped, she saw several more officers arrive and she watched as they removed the suspect from the vehicle. Parker told me the suspect appeared to be dead and she could see blood coming from a wound to his head. She and [REDACTED] did not stay at the scene to be interviewed because they had to get on the bus for an appointment at the GR office. [REDACTED] and [REDACTED] do not have a permanent residence and their only cell phone is currently disconnected. She told me she will reconnect her cell phone soon and may be reached at [REDACTED].

[REDACTED] is [REDACTED] boyfriend and the two have a child in common. He told me he and his family were walking toward the bus stop from the [REDACTED]. As they neared the intersection of Hubbard Avenue and San Fernando Road, they saw a traffic collision occur in the intersection. Warner immediately saw a police vehicle driving southbound on Hubbard Avenue and he knew something serious was happening. He then saw his girlfriend, [REDACTED] walking toward the vehicles in the intersection. He yelled at her to come back because he felt something bad was about to happen. He then saw the police vehicle stop behind the suspect vehicle and both officers exit and

draw their weapons. He heard the officers yelling something to the driver of the suspect vehicle, and then he saw the suspect point a gun at the officers through the rear window of the vehicle. [REDACTED] heard several gunshots and began to run to the parking lot of the [REDACTED] for safety. He does not know how many gunshots he heard, but [REDACTED] believes the suspect fired at the officers first and then the officers returned fire.

Neither [REDACTED] nor his girlfriend or daughter was injured as a result of the incident. [REDACTED] does not have a stable residence and currently stays at the Goldstar Inn when he can afford to. [REDACTED] also does not have a cell phone, but can be reached at [REDACTED] cell number when she has it reactivated.

\*\*\*\*\*

On 01-11-2016, Monday, at 1300 hours, Detectives [REDACTED] and [REDACTED] were detailed to [REDACTED], San Fernando, regarding an officer involved shooting. Detectives responded to the location and contacted Detectives [REDACTED] and [REDACTED], the handling detectives.

At the scene, LASD detectives also contacted San Fernando Police Detective Peter Aguirre, #10243.

Detective [REDACTED] told detectives that on 01-11-2016, at about 1156 hours, San Fernando Police Officers [REDACTED] Woodward, #10241, and his partner, Officer [REDACTED] #10402, were in a marked black and white police car assigned to the San Fernando PD, operating under the radio call sign of Unit 1A27.

(127)

JANUARY 14, 2016

-4-

016-00006-3199-013

Officers Woodward and [REDACTED] attempted to conduct a traffic stop on a gray 4-door Nissan Altima, California license plate [REDACTED] driven by Suspect [REDACTED]. Before the officers could conduct any enforcement activity, [REDACTED] put his vehicle into reverse and intentionally rammed the police car of Officers Woodward and [REDACTED].

[REDACTED] then fled a very short distance in his vehicle, followed by Woodward and [REDACTED]. [REDACTED] collided with a black Toyota Corolla in the intersection of San Fernando Road and Hubbard and eventually came to rest near the sidewalk. Almost immediately thereafter, an officer involved shooting occurred.

For purposes of this report, Hubbard and all the streets that run parallel to it will be considered north-south streets. San Fernando Road and all streets that run parallel with it will be considered east-west roads. Hubbard's true direction runs in a northeasterly, southwesterly direction. San Fernando's true direction runs in a northwesterly, southeasterly direction.

The San Fernando Police Department, assisted by units from the Glendale Police Department and the Burbank Police Department, had set up a crime scene containment blocking the street at San Fernando Road and Meyer Street, at Truman Street and Meyer Street, on Hubbard Street at 1<sup>st</sup> Street, on Truman Street several hundred yards west of Hubbard Street, and on San Fernando Road several hundred yards west of Hubbard Street, as well as on Hubbard Street just north of Hubbard Place. The primary location of interest was the intersection of San Fernando Road and Hubbard Street.

During the course of the crime scene investigation, detectives determined that this incident occurred over a several block area.

Detectives saw that Truman Street is an east-west commercial roadway intersecting with Hubbard Street in the city of San Fernando.

Hubbard Street is a north-south commercial roadway. Both Hubbard Street and Truman Street have two lanes of traffic in each direction. Where they intersect, there are left turn lanes clearly delineated on the roadway for all four directions. The intersection is controlled by traffic signals and there are painted crosswalks on the roadway.

There is an [REDACTED] gas station and minimart located on the northwest corner of Truman and Hubbard Street. This business bears the address of [REDACTED], San Fernando.

The gas station is located on the north side of the roadway, [REDACTED]. On the northeast corner of Hubbard and Truman is a shopping plaza doing business as Hubbard Plaza. There are a series of L-shaped commercial buildings all connected with each other, each containing a separate and distinct individual business.

These businesses going from west to east include a "Subway" sandwich shop, a dentists' office, a cleaners, a "Boost" mobile phone store, a hair and nail salon, a market, a realty office, a massage and day spa, an insurance office, and a Mexican restaurant.

On the southwest corner of Hubbard and Truman is a business operating as a gold and diamond exchange. This particular business bears the street address of [REDACTED]. This business was closed as the time of the crime scene investigation. This business and the property, on which it sits, divides Truman Street from San Fernando Road. These two roadways run parallel with each other and are approximately 200 feet apart. San Fernando Road is south of Truman Street.

Detectives saw that there was a coin operated carwash with 6 individual wash bays located on the northeast corner of Hubbard and San Fernando Road. This carwash was equipped with surveillance cameras, and a subsequent inquiry by detectives revealed that none of these cameras captured any of the images related to the shooting event.

The intersection of San Fernando Road and Hubbard Street is controlled by traffic signals with left turn lanes in all directions. Like the previously described intersection, San Fernando Road also has two lanes of travel in each direction, as well as left hand turn lanes, at the intersection.

On the southeast corner of Hubbard Street and San Fernando Road, where the incident terminated, is a business selling used high-end vehicles operating under the name Western Motor Sports and bearing the address of [REDACTED], San Fernando.

During the course of the crime scene investigation, San Fernando Police Detective [REDACTED] as well as Detective [REDACTED] contacted the operator of [REDACTED] MH/35.

The video cameras at that business were inspected and they did not capture any of the images pertaining to the shooting incident and were focused solely on the business property.

Across the street and directly west of the [REDACTED] car lot was a business operating as the [REDACTED]. This business is located on Hubbard Street, just south of San Fernando Road.

The parking lot of [REDACTED] contained an inventory of cars that paralleled both San Fernando Road, as well as Hubbard Street. There were approximately 9 vehicles parked (that were for sale) along the San Fernando Road portion of the lot, as well as 7 vehicles (for sale) along the Hubbard Street portion of this parking lot.

JANUARY 14, 2016

-6-

016-00006-3199-013

Based on video evidence discovered from the [REDACTED] located on the corner of Truman and Hubbard Street, detectives determined that the collision between Suspect [REDACTED] vehicle and the San Fernando Police vehicle occurred on Truman Street in the number 2 eastbound lane, west of Hubbard, directly in front of the American Radiator shop, approximately 100 feet west of the west curb line of Hubbard Street.

Detectives saw that the vehicle driven by Suspect [REDACTED] was a gray, 4-door, 1999 Nissan Altima, bearing California license [REDACTED]. This vehicle was registered to the suspect, with an Anaheim address.

This vehicle was parked facing in a southeast direction. The front wheels of the car were resting on the curb at the southeast corner of San Fernando Road and Hubbard Street. The tail lights were facing in a northwest direction. The vehicles driver's door was open with the window down, approximately 1/4 of the way leaving about a 5 inch gap from the top of the windows edge. The rear driver's door was closed, but unlocked. The front passenger door was also closed with the window down, approximately 5 inches. The rear passenger side door was closed with the window in the up position.

The vehicle suffered major damage to the front end from its impact with the black Toyota and the curb, as well as an approximate 4 foot tall, metal, crossing light pole containing a button for pedestrians to push in order to safely cross the street. This pole was slightly bent in a southward position.

There was a sidewalk on the south side of San Fernando Road, as well as on the east side of Hubbard Street. The front bumper of the suspect's vehicle was completely dislodged from the car and resting on the sidewalk directly in front of the vehicle. The front license plate was still attached to the bumper.

Detectives saw that there was a parking ticket issued by the Manhattan Beach Police Department on 01-10-2016 at 1133 hours, affixed underneath the windshield wiper in front of the driver's position.

There was a large, vertical, U-shaped dent in the rear trunk/bumper area of the suspect's vehicle. This dent appeared to have been caused by one of the push bars from the San Fernando Police Department vehicle as the suspect had collided with the vehicle prior to the termination of his flight from the officers. There was a license plate affixed to the rear of the suspect's vehicle.

The suspect's vehicle had at least 4 bullet strike marks in the passenger side of the rear trunk lid. There was another apparent strike mark in the passenger side rear tail light.

On the passenger side of the rear tail light, detectives saw what appeared to be another strike mark, also caused by the officer involved shooting. There was what appeared to be other strike marks in the rear passenger side quarter panel.

A strike mark was visible in the lower bumper quarter panel area below the passenger side rear tail light. A strike mark was also visible in the rear bumper right next to the rear license plate. Strike marks were visible in the rear passenger side bumper, just underneath the tail lights.

The rear windshield of the suspect's vehicle had a large approximate 24 inch irregular shaped hole in it with a smaller hole that appeared consistent with a bullet strike mark.

The front windshield also had what appeared to be a projectile exit strike mark, approximately 2 inches below the sun visor, directly above the steering wheel. There was another strike mark on the windshield, also in front of the steering wheel, approximately 8 inches above the windshield wiper on the driver's side of the vehicle.

Three doors of the vehicle, with the exception of the driver's door, were in the locked position. Both airbags appeared to have deployed when the vehicle collided with the Toyota Corolla.

The back seat of the vehicle was littered with a black and gray, NFL Raiders logoed, blanket, a blue pillow, and miscellaneous men's clothing, including a sweatshirt, T-shirt and other items. A large, plastic iced tea container filled partially with urine was in the back seat. It appeared as if the suspect were living in the car.

Senior Criminalist [REDACTED] [REDACTED] from the Sheriff's Crime Lab, Firearms Section, assisted detectives in conducting an examination of the scene and the suspect's vehicle, as well as collecting and documenting all of the firearms related evidence. Copies of his supplemental report will be obtained by detectives and made a permanent part of the case file. His report will have exact locations and numbers of the bullet strike marks in the suspect's vehicle.

Also present and assigned to the Sheriff's Crime Lab, Latent Print Detail, were Forensic ID Specialists [REDACTED] [REDACTED] [REDACTED] and [REDACTED] [REDACTED]. All three of these Forensic Identification Specialists assisted detectives in conducting the crime scene investigation, including taking photographs, collecting evidence, and producing a diagram of the scene. Their reports and work product will be obtained by detectives and made a permanent part of the case file.

All measurements in this report are approximations only. True and correct measurements are those obtained and published by the Forensic ID Specialists, as well as Senior Criminalist [REDACTED] from the Sheriff's Crime Lab.

There was a large field of debris on the roadway to the rear (north) of the suspect's vehicle. This debris included broken glass, plastic molding, car parts, and other items that had come off of either the suspect's vehicle or a vehicle that had been struck by the suspect.

Detectives had been told by San Fernando Police Officers that just prior to the suspect's vehicle coming to a stop, it had collided with a black 4-door Toyota Corolla that was facing westbound on San Fernando Road at the intersection of San Fernando Road and Hubbard Street.

The driver of the black Toyota Corolla was identified as [REDACTED] NMN [REDACTED] MH/DOB: [REDACTED]. He had subsequently been transported by Los Angeles City Firefighter Paramedics to Holy Cross Hospital complaining of chest pain and other injuries. The front seat passenger was identified as [REDACTED] NMN [REDACTED] MH/DOB: [REDACTED]. [REDACTED] refused medical treatment at the scene.

The black Toyota was resting in the crosswalk dividing the north and southbound sides of San Fernando Road. The tail lights were facing in a northwest direction. This vehicle had major traffic collision damage on the front end and appeared to be a total loss.

The front passenger door was open, as was the driver's door. This vehicle bore California license [REDACTED]. There was debris scattered from this Toyota throughout the roadway in both the east and westbound lanes of San Fernando road behind the vehicle.

A cellular telephone that was identified as belonging to [REDACTED] was observed by detectives on the vehicle roof and subsequently released to the custody of San Fernando Police Detective Pete Aguirre, who returned this telephone to its rightful owner.

There was a black BMW X5, bearing VIN # [REDACTED] parked on the lot of the [REDACTED]. This vehicle was for sale and was parked approximately 10 feet south of the suspect's vehicle. The headlights to this vehicle were facing in an easterly direction. A close exam of this vehicle revealed that there was a bullet strike mark in the driver's side rear door. A projectile, (Item 27) was subsequently retrieved from the interior portion of this vehicle by Senior Criminalist [REDACTED].

Detectives recovered a spent projectile (Item 25) on the ground, approximately 6 inches east of the suspect's rear passenger side door and 3 feet west of the suspect's feet as he was lying in the roadway.

JANUARY 14, 2016

-9-

016-00006-3199-013

Another spent projectile was recovered on the roadway (Item 26) underneath the front grill area of the previously described black Toyota. This particular projectile was approximately 20 feet north of the south curb line of San Fernando Road and 15 feet east of the west curb line of Hubbard Street.

The suspect was lying on his back in the roadway covered by a white sheet. Detectives saw the suspect's feet were pointing in a westbound direction with his head pointing eastbound. The suspect was approximately 2 feet north of the south curb line of San Fernando Road and approximately 30 feet east of the west curb line of Hubbard Street.

When detectives initially arrived on scene, San Fernando Police Units 27 and 25 were in the intersection of Hubbard and Truman. Both of the units had their rotating lights activated with the Code 3 switch in the number 3 position.

San Fernando Police units are equipped with a video monitoring system that is active while the Code 3 switch is in the 3 position. At 1453 hours, the Code 3 switch was deactivated in Unit 27 by San Fernando PD Detective [REDACTED].

At 1455 hours, the Code 3 switch was deactivated in Unit 25 by San Fernando PD Detective [REDACTED].

Approximately 17 feet north and west of the suspect's vehicle (as measured from bumper to bumper) was San Fernando Police Department Unit 27. This unit was operated by Officers [REDACTED] and Woodward. This unit was a marked, black and white, 2009 Ford, Crown Victoria, 4-door, California license [REDACTED] Exempt. The unit was marked as Item A for photographs.

Upon examination, it was determined that the unit was in park; its light bar was in the Code 3 position (until it was turned off at 1453 hours); the radio was on channel Z1SFPD1; a "less lethal" shotgun was in a roof rack; a mobile digital computer was on; and the camera was on.

On the driver's side floorboard between the left side of the seat and the door was a baton. On the rear of the center console was a "Posse Box" brand storage container for reports/papers.

On the passenger side floorboard between the right side of the seat and the door was a baton. On the passenger side floorboard was a preliminary alcohol screen (PAS) device inside a "Pelican" brand box / container. Also on the passenger side floorboard was a mouth piece for the preliminary alcohol screening device.

Sitting on the front driver's seat was an expended .45 caliber casing, head stamped "Winchester .45 Auto," (Item 10).

(133)

On the right rear passenger floorboard was a shell casing, head stamped "Winchester .45 Auto," (Item 23).

On the roof of the vehicle under the light bar, detectives located two casings, head stamped "Winchester .45 Auto," (Items 28 and 29).

Arrayed in an arc, approximately 15 feet in radius around the driver's side door, were six casings, head stamped "Winchester .45 Auto," and a single live 45 caliber round, head stamped "Winchester .45 Auto," (Items 1, 2, 6, 7, 8, and 9).

Also within this radius was an empty Glock magazine (Item 3), a live .45 caliber round head stamped "Winchester .45 Auto," (Item 4), and a handcuff key (Item 5). Within the radius, but underneath the vehicle was an expended casing, head stamped "Winchester .45 Auto," (Item 21).

Arrayed in an arc around the passenger side of the vehicle, with a radius of approximately 20 feet, were 9 casings, head stamped "Winchester .45 Auto," (Items 11 through 20).

Located on top of the front right passenger windshield wiper well was a casing, head stamped "Winchester .45 Auto," (Item 22).

A spent projectile, (Item 24) was recovered from the roadway under the front grill of the damaged Toyota.

Detectives examined the front bumper and push bar of Unit 27. The unit had an aftermarket front push bumper manufactured by "Go Rhino" products.

The push bumper consisted of two vertical metal pieces approximately 30 inches in length covered in rubber. These vertical pieces are affixed to the front bumper of the vehicle. The bottom of the vertical pieces extends just below the frame of the vehicle, and the top of the vertical pieces extends just above the hood of the vehicle. There are two metal struts supporting the vertical pieces between them. The first metal strut is about a 1 ½ inches from the top of the vertical pieces and the second metal strut is about 10 inches below the first strut. The clearance of the top portion of the push bumper is about 8 inches from the hood of the vehicle.

Detectives saw that the push bumper on Unit 27 was damaged. The metal on the passenger side vertical bumper was bent inward and the rubber cover was severely scuffed. In addition, the bumper itself is pushed backwards at an angle so that the top portion of the bumper touches the hood of the car.

Detectives could also see that the plastic of the air intake (front grill) on the vertical portion of the passenger side was broken. Finally, there was a defect in the plastic housing where a small portion of the metal from the push bar penetrated the plastic housing during a collision.

Parked south and west of the suspect's vehicle were 5 vehicles that were occupied by witnesses to the incident. All five of these vehicles are parked facing northbound in the northbound lanes of Hubbard.

The western most vehicle was a black, 4-door, Honda Accord, California license plate [REDACTED]. The front right passenger tire of the Accord is 18 feet north and 57 feet east of the front right passenger tire of the suspect's vehicle.

A Chevrolet 2500, gray, 4-door, pickup, bearing California license plate [REDACTED] was in the number 1 northbound lane of Hubbard. The front right passenger tire was 72 feet north and 49 feet east of the front right passenger tire of the suspect's vehicle.

A silver, 4 door, Toyota Camry, California license plate [REDACTED] was in the number one lane, of northbound Hubbard Street. The front right passenger tire was 24 feet north and 45 feet east of the front right passenger tire of the suspect's vehicle.

A grey, 4 door, Honda Accord, California license plate [REDACTED] was in the number two lane, northbound on Hubbard Street. The front right passenger tire was 60 feet north and 27 feet east of the front right passenger tire of the suspect's vehicle.

A black, Mercedes E35, 4-door, bearing California license plate [REDACTED] was northbound in the number 2 lane of Hubbard Street. The front right passenger tire was 15 feet north and 27 feet east of the front right passenger tire of the suspect's vehicle.

At approximately 1950 hours, Coroner's Investigators [REDACTED] [REDACTED] #498313 and [REDACTED] #603494 arrived to the scene.

A closer examination of the suspect's remains indicated that he was wearing a long sleeved, gray, cotton sweatshirt with a black shirt underneath. He was also wearing blue jeans with a black leather belt, as well as black sneakers and black socks, (Item 35). These items will be obtained at a later date from the Coroner's office.

The suspect had been handcuffed behind his back by the San Fernando Police Officers. The suspect appeared to be of average build with no visible tattoos, with the exception of a spider tattoo on his left hand.

The suspect had light brown hair with a goatee and full mustache. There was blood on the suspect's nose and right ear.

An examination of the suspect's remains indicated he had what appeared to be a single gunshot wound to the right side of his head behind his right ear.

On the back of the suspect's shirt, just below the collar about 1 inch to the right of the center line, was a small defect in his shirt. Directly below that defect was a small cut on the suspect's back that had blood on it. On the suspect's right scapula, there was a small piece of metal.

Lying in the center console of the suspect's vehicle was an approximate 13 inch tree branch/piece of wood that was about 2 ½ inches thick. This wood was light brown in color and was tapered at one end, (Item 31).

During the course of this investigation, detectives had been told by Detectives [REDACTED] and [REDACTED] as well as several San Fernando police detectives and officers that a variety of witnesses had described the suspect's movement prior to the shooting incident and that he appeared to be armed with some type of a weapon in his hand. It is likely that this item (tree branch) is what the suspect was holding.

From inside of the suspect's vehicle, detectives recovered a "Garmin" brand GPS device, as well as a California ID card, several medical bills, notes, papers, letters, and two spiral bound notebooks (Item 36) with handwriting from the suspect describing his early life and subsequent incarceration for crimes.

From inside the suspect's vehicle, Coroner's Investigator [REDACTED] retrieved 5 prescription pill bottles, all issued to the suspect. Included amongst these medications was a prescription for Clopidogrel, Crestor, Levothyroxine, Lisinopril, and Metoprolol. An itemized list of these prescriptions, as well as the issue date, the number of pills remaining, the number of pills missing, and their size will be obtained and maintained as a permanent part of the case file by the handling detectives.

On 01-11-2016, at about 1557 hours, Detective [REDACTED] contacted WITNESS [REDACTED] MW/DOB: [REDACTED] at the [REDACTED] located at [REDACTED], San Fernando. [REDACTED] stated that he was the manager of the gas station.

The witness stated that there were numerous video cameras arrayed around the gas station. The witness allowed Detective [REDACTED] to examine the video system. Detective [REDACTED] determined that there were three cameras that potentially captured the collision between the San Fernando police unit and the suspect's vehicle on Truman, west of Hubbard.

Cameras 17, 18, and 19 from the time period of 1155 and 14 seconds to 1158 and 14 seconds clearly showed the suspect's vehicle ramming the San Fernando police car and then fleeing east on Truman then south on Hubbard.

JANUARY 14, 2016

-13-

016-00006-3199-013

On 01-12-2016, Detective [REDACTED] requested that detectives from the LASD tech crew respond to the location and obtain the video images from the security cameras.

On 01-13-2016 (Wednesday), at 1330 hours, Detective [REDACTED] accompanied by Senior Criminalist [REDACTED] and Forensic ID Specialist [REDACTED] conducted a secondary examination of the suspect's vehicle at Black and White tow yard, located in Pacoima. This examination revealed that there were several spent projectiles recovered from the vehicles interior, Items 30, 32, 33, and 34).

All of the facts ascertained and materials gathered by detectives will be provided to the lead Detectives, [REDACTED] and [REDACTED].

Investigation continuing with further reports to follow.

EVIDENCE HELD

Item #5: Semi-automatic pistol, Glock, model 21, .45 caliber, serial #XHF628

Item #6: Semi-automatic pistol, Glock, model 21, .45 caliber, serial #XHF669

On January 11, 2016, at approximately 1315 hours Homicide Detectives [REDACTED] and [REDACTED] responded to 1702 San Fernando Road in the city of San Fernando, county of Los Angeles, to investigate the circumstances surrounding an officer involved shooting.

On January 11, 2016, at approximately 1415 hours, detectives arrived at the location. The scene was cordoned off with black and white patrol units, yellow crime scene tape, and uniform personnel from several near-by agencies. Detectives detailed Homicide Detectives [REDACTED] and [REDACTED] to document the crime scene and oversee the collection of evidence. Detectives were assisted by Homicide Detectives [REDACTED] and [REDACTED] with interviewing witnesses and victims. Their actions and observations will be documented in their respective supplemental reports under this file number.

While at the scene, detectives were briefed by San Fernando Police Lieutenant [REDACTED]. Lieutenant [REDACTED] told detectives that San Fernando Police unit 1A27 (Officers Woodward and [REDACTED]) were driving south on Hubbard Avenue when they made a right (west) turn onto Truman Street. After making the turn, they observed a vehicle and made a u-turn. The officers were in a marked patrol unit and now driving east on Truman Street. The officers were behind (west of) the suspect vehicle when the suspect reversed directly into their marked unit. The suspect then drove away.

After being struck by the suspect's car, the officers initiated a pursuit of the suspect vehicle eastbound on Truman Street to southbound on Hubbard Street. They observed the suspect vehicle collide with another vehicle after driving through a red traffic signal at the intersection of Hubbard Street and San Fernando Road. The suspect's vehicle came to rest on the southeast corner of Hubbard Avenue and San Fernando Road.

Detectives were advised an officer involved shooting occurred in the intersection of Hubbard Street and San Fernando Road. Both officers were at the San Fernando Police Station awaiting detectives' arrival. Los Angeles City Fire Department Paramedic [REDACTED] pronounced the suspect dead at 1207 hours. Los Angeles City Fire personnel placed a white sheet over Suspect [REDACTED].

JANUARY 13, 2016

- 3 -

016-00006-3199-013

Detectives were given a walk through the scene by San Fernando Detective [REDACTED].

Detectives observed a Nissan Altima (California license # [REDACTED]) and a black Toyota Corolla in the intersection, both vehicles had extensive damage. Behind the Nissan Altima(suspect's vehicle) was a marked San Fernando Police Department radio car. There was another unmarked Ford Crown Victoria offset behind the marked radio car. There was vehicle debris around both civilian vehicles. Detectives observed an apparent bullet impact to the driver's side window of a black, BMW vehicle parked at the [REDACTED] auto dealership. This vehicle was parked perpendicular to, and southeast of, the suspect's Nissan Altima.

Detectives detailed Detective [REDACTED] to locate any possible video surveillance of the intersection at the time of the shooting.

Detectives were informed the driver of the Toyota Corolla ([REDACTED] a MH) was transported to Holy Cross Hospital. Detectives detailed San Fernando Detective [REDACTED] to interview Witness [REDACTED]. Detective [REDACTED] will prepare a supplemental report documenting his actions and observations.

On January 11, 2016, at approximately 1600 hours, detectives viewed video surveillance footage from the [REDACTED] gas station located on the northwest corner of Truman Street and Hubbard Avenue. The footage showed the suspect vehicle reversing directly into the front end of the San Fernando Police marked radio car at approximately 11155 hours. The assault occurred south of the [REDACTED] gas station on Truman Street. Detective [REDACTED] was tasked to recover the video footage showing the collision.

Detectives spoke with San Fernando Chief of Police [REDACTED]. He informed detectives the radio car was equipped with a dash mounted camera. He was the only person who could download the video footage. Chief [REDACTED] allowed detectives to view the video footage of the shooting from the interior of the radio car that Officer Woodward and Officer [REDACTED] were in at the time of the shooting. Chief [REDACTED] was detailed to download a copy of the video footage and place it on a compact disc.

Detectives drove back to the San Fernando Police Station and spoke with [REDACTED] from the Law Firm of [REDACTED] and [REDACTED]. Mr. [REDACTED] told detectives he was the legal representative for Officer Woodward and Officer [REDACTED]. He stated he was not sure if the officers would be making a statement to detectives. He asked detectives to give him more time to speak with the officers. Mr. [REDACTED] met with detectives approximately 20 -30 minutes later and informed detectives the officers would like to see the video footage from their dash mounted camera prior to providing a statement about the shooting.

Detectives were informed by Chief [REDACTED] that the San Fernando Police Department currently has no specific policy regarding officers viewing video footage prior to providing any statement.

On January 11, 2016, at approximately 1835 hours, detectives provided Mr. [REDACTED] a copy of the dash mounted video footage of the shooting. The video was abridged and showed only the time from their initial pursuit of the suspect vehicle until shortly after the shooting. A full copy of the video from the time of the pursuit until the time the lights were turned off by Detective [REDACTED] will be provided by Chief [REDACTED]

#### INTERVIEW OF OFFICER BRIAN WOODWARD

On January 11, 2016, at approximately 1915 hours, detectives interviewed Officer [REDACTED] Woodward. The interview was conducted inside the San Fernando Police Detectives Conference room. The interview was recorded. The following is a synopsis of the interview. For exact wording and precise verbiage, refer to the audio recording. Mr. [REDACTED] was present during the interview.

Detectives confirmed with Officer Woodward that he was able to review video footage from his dash mounted camera, with Mr. [REDACTED] prior to the interview. Officer Woodward stated he was working as a field training officer with his partner, Officer [REDACTED]. They were assigned to day shift patrol (0600hrs – 1800hrs) working unit 1A27. Officer Woodward said he has been employed with the San Fernando Police Department as an Officer for seven years.

Officer Woodward told detectives he was working a routine patrol while they were driving southbound on Hubbard Avenue to westbound Truman Street when he and Officer [REDACTED] observed a Nissan Altima straddling between the lanes of traffic. Officer [REDACTED] made a U-turn from westbound Truman Street to Eastbound Truman Street. He stated the intent of their U-turn was to get behind the Nissan Altima and ascertain its license plate and find out if there were any wants or warrants associated with the vehicle. Officer Woodward said they did not activate any lights or sirens.

Once their patrol car was facing east on Truman Street, Officer Woodward estimated they were 30 – 40 feet behind the Nissan Altima (referred to as the suspect vehicle). Officer Woodward noticed the white reverse lights illuminate on the suspect vehicle. Officer Woodward shared his observation to his partner, Officer [REDACTED]

Officer Woodward explained how he observed the driver and sole occupant of the suspect vehicle looking back in his direction while driving in reverse. He estimated the suspect vehicle to be driving west, in the eastbound lanes of traffic, at 15-20 mph. He said Officer [REDACTED] placed the patrol car in park. He opened his passenger side door and drew his pistol. He partially exited the vehicle by placing one foot on the street and keeping his body between the door and the car frame. He gave commands for the driver to stop. He estimated the suspect vehicle to be driving at 20-25 mph prior to it impacting their radio car.

Officer Woodward said the impact of the suspect's vehicle into their patrol car caused him to be struck by the passenger door. He momentarily lost sight of the driver. He confirmed no rounds were fired at that time.

Officer Woodward said the suspect vehicle sped away eastbound on Truman Street to southbound on Hubbard Avenue. He entered his patrol vehicle and a pursuit was initiated with emergency lights and siren. This activation of lights and siren initiated the dash mounted camera recording system. Officer Woodward advised other units their unit had been rammed and they were in pursuit of the suspect vehicle.

Officer Woodward told detectives he felt the suspect intentionally rammed the patrol car as he could see the suspect looking at him while driving directly at their patrol car.

Officer Woodward said he thought the suspect vehicle was approximately 50-75 yards in front of their patrol vehicle as it turned southbound onto Hubbard Avenue. He said the suspect vehicle attempted an eastbound turn onto San Fernando Road from Hubbard Avenue. As the suspect vehicle attempted the turn, it collided with another vehicle causing the suspect vehicle to come to rest on the southeast corner of San Fernando Road and Hubbard Avenue. Officer Woodward said he thought the suspect vehicle drove right through a red signal for southbound traffic on Hubbard Avenue as the suspect vehicle collided into the other vehicle (Toyota Corolla). He said after viewing the video, it appeared the suspect drove intentionally into the Toyota Corolla.

Officer Woodward advised assisting units of the collision between the two vehicles. He said they positioned the patrol car approximately 10 feet behind the suspect vehicle. He said he and Officer [REDACTED] exited the patrol car and pointed their pistols at the driver while giving him commands to raise his hands and not to move.

Officer Woodward explained how the suspect did not comply with commands and was reaching toward the passenger side of the vehicle. He said he could see into the suspect's vehicle. He observed the suspect come up from the passenger side of the car and look back toward him (Officer Woodward) while extending his right hand toward the rear window. Officer Woodward believed the suspect had a firearm in his right hand and he fired one round from his pistol. After discharging one round, he heard multiple rounds

JANUARY 13, 2016

- 6 -

016-00006-3199-013

being fired. He believed the suspect was shooting at him so he fired eight or nine additional rounds. He said he shot until he could no longer see the silhouette of the suspect in the driver's seat.

Officer Woodward said he held the suspect at gunpoint and broadcast that a shooting had occurred. He requested fire department personnel for the injured victims of the collision. He said he advised the passengers inside the car that was struck by the suspect to stay inside their vehicle.

Officer Woodward told detectives he and Officer [REDACTED] approached the suspect vehicle from the passenger side which afforded them a tactical advantage due to the second disabled vehicle (Toyota Corolla) being in the path to the driver's side of the suspect vehicle. As they covered the suspect, additional officers approached and extracted the suspect from the driver's side of his car. It was apparent the suspect had been struck by a gunshot so the officers attempted to provide medical aid to him while the fire department was enroute.

Officer Woodward stated per their Department policy he and Officer [REDACTED] removed themselves from the immediate scene and provided a public safety statement to the Watch Commander.

Officer Woodward stated once he was back at the San Fernando Police Station, Lieutenant [REDACTED] recovered his pistol and locked it in her office. Prior to the interview, Detective [REDACTED] took possession of both officers' pistols (**Evidence items # 5 & 6**) from Lieutenant [REDACTED].

Detectives watched as Officer Woodward removed his pistol from an envelope and made the weapon safe. Officer Woodward's pistol was a Glock, .45 caliber, model 21, semi-automatic handgun (serial #XHF669). The pistol had a "Surefire" X300 tact light attached to it. Detectives observed one live round in the chamber of the gun. The magazine that was seated inside his pistol contained 13 live rounds. The second magazine that Officer Woodward tactically removed in the field contained 4 live rounds.

Officer Woodward explained how after discharging his pistol, but before approaching the suspect vehicle, he reloaded his handgun with another full magazine.

Detectives concluded their interview at 1937 hours.

Officer Woodward was photographed in his uniform at the station by Forensic Identification Specialist Baker prior to the arrival of detectives.

143

INTERVIEW OF OFFICER [REDACTED]

On January 11, 2016, at approximately 1957 hours, Detectives [REDACTED] and [REDACTED] interviewed Officer [REDACTED] regarding an officer involved shooting. The interview was conducted in the detective conference room at the San Fernando Police Department. Also present during the interview was Officer [REDACTED] Attorney [REDACTED]. The interview was digitally recorded. The following a summary of the interview:

Prior to the interview officer [REDACTED] was provided a copy of the dash mounted camera video from his patrol car which he was able to review along with his attorney.

Officer [REDACTED] said he was working unit 1A27 along with his partner Officer [REDACTED] Woodward. He said he was driving and Officer Woodward was in the passenger seat. They were both wearing standard San Fernando Police Department uniforms and driving in a marked black-and-white police unit. He said they were working Team One from 0600 to 1800 hours. He said prior to the incident it had been a slow day and after finishing some report writing they began to conduct routine patrol.

At approximately 1155 hours they were traveling southbound on Hubbard Avenue approaching Truman Street. As he turned onto westbound Truman Street he saw a vehicle traveling eastbound Truman Street straddling the number one and two lanes of traffic which is a vehicle code violation. Officer [REDACTED] turned onto westbound Truman Street and then made a U-turn in order to get behind the vehicle which was now stopped at a red light at Truman Street and Hubbard Avenue.

As he completed the U-turn, he saw the suspect's vehicle back up lights turn on and the vehicle began driving backwards toward his patrol unit. Officer [REDACTED] said at this point he had not yet activated his overhead lights. Officer [REDACTED] stopped his patrol car and attempted to put his vehicle in reverse in order to avoid the suspect's vehicle, which was backing up toward him. He said he was unable to get his vehicle into reverse and his vehicle stalled. He said the suspect vehicle was approximately 30 feet from his vehicle and continued on a path toward his patrol vehicle.

Officer [REDACTED] said he opened up his car door and pointed his gun at the suspect vehicle while yelling commands for the vehicle to stop. He said he could see the suspect was looking over his shoulder toward them as he backed up. He said when the suspect vehicle struck his vehicle it caused his door to slam into his body. After the vehicle collided it drove off. Officer [REDACTED] activated his overhead lights and siren and began pursuing the vehicle.

JANUARY 13, 2016

- 8 -

016-00006-3199-013

The suspect vehicle turned onto southbound Hubbard Avenue. The suspect vehicle ran a red light at San Fernando Road and Hubbard Avenue where it collided with a vehicle that was traveling westbound San Fernando Road. The suspect vehicle came to rest at the corner in front of [REDACTED] where an auto dealership doing business as [REDACTED] was located. The other vehicle involved in the collision came to rest behind the suspect vehicle, near the rear driver's side of the suspect vehicle.

Officer [REDACTED] said he stopped his patrol vehicle behind the suspect vehicle. He exited his vehicle and detained the suspect at gunpoint. He said he began yelling commands for the suspect to get out of the vehicle and "put it down."

Officer [REDACTED] said he saw the suspect vehicle's reverse lights come on but the vehicle did not move. Officer [REDACTED] said he had a clear line of sight on the suspect through the rear window of the suspect's vehicle. He saw suspect reach down toward the passenger side of the vehicle. As the suspect's body came up he saw the suspect turn back toward him and his partner with an object in his right hand which he (Officer [REDACTED]) believed was a handgun. He said he heard a single gunshot and believed the suspect was firing at him.

Officer [REDACTED] said he feared for his life and his partner's life and began returning fire. He believed he fired 14 rounds from his gun. He said he reloaded his gun and accidentally ejected one live round but did not fire anymore rounds.

After the shooting other units arrived at the scene. Officer [REDACTED] along with Officer [REDACTED] cleared the vehicle and pulled the suspect out of his seat. Officer [REDACTED] placed the suspect in handcuffs and awaited rescue personnel.

Officer [REDACTED] said his partner and he were then transported to the San Fernando Police Department headquarters where they waited to be interviewed.

Detectives observed Officer [REDACTED] remove his pistol from an envelope and make the weapon safe. Officer [REDACTED] pistol was a Glock .45 caliber, model 21, semiautomatic handgun (Serial # [REDACTED]). The pistol had a mounted Streamlight flashlight attached to it. Detectives counted one live round in the chamber and 12 live rounds in the magazine that was seated in the gun.

The interview concluded at 2024 hours.

Officer [REDACTED] was photographed in his uniform at the station by Forensic Identification Specialist [REDACTED] prior to the arrival of detectives.

On January 11, 2016, at 2140 hours, detectives provided Firearms Examiner [REDACTED] with the firearms of both officers (EV Item 5 & 6), Lab receipt #K544508.

On January 12, 2016, at approximately 1445 hours, detectives drove to the Sheriff's Crime Lab and picked up both pistols from Firearms Examiner [REDACTED]. Detectives drove to the San Fernando Police Department and returned the pistols to Chief [REDACTED].

On January 12, 2016, at approximately 1558 hours, Detective [REDACTED] spoke with [REDACTED] Schoon via telephone. Ms. Schoon told Detective [REDACTED] she knew Suspect [REDACTED] as he attended her Church in Garden Grove (First Presbyterian Church of Garden Grove). She said she allowed Suspect [REDACTED] to live in her house from April 2015 until sometime after Thanksgiving of 2015. Ms. [REDACTED] is a doctor and characterized Suspect [REDACTED] behavior as paranoid and angry. She speculated that he was using methamphetamine. She said he had lost weight recently.

On January 12, 2016, at approximately 1242 hours, Detective [REDACTED] spoke with Pastor [REDACTED] of the [REDACTED]. She informed Detective [REDACTED] how Suspect [REDACTED] worked as a janitor in the church for approximately four years. She said he started employment with the church shortly after he was released from prison. She said he was terminated for his "anger problems." She mentioned how Suspect [REDACTED] tried to kill himself while he was in prison.

On January 14, 2016, at approximately 1100 hours, detectives attended the post mortem examination of Suspect [REDACTED]. The exam took place at the Los Angeles County Medical Examiner, Department of Coroner's Office. The post mortem examination was performed by Doctor [REDACTED]. Suspect [REDACTED] had a single gunshot wound to the right side of his head. The gunshot wound entrance was just behind the right ear. The bullet was recovered. The bullet traveled right to left, back to front, and slightly upward. Doctor [REDACTED] ascribed the cause of death to be from a fatal gunshot wound.

On January 15, 2016, at approximately 1015 hours, Detective [REDACTED] spoke with [REDACTED] Ms. [REDACTED] was in a dating relationship with Suspect [REDACTED] for approximately 3 ½ years. She stated he suffered from depression and anxiety. She said he smoked marijuana and took thyroid medication. She explained how she recently told Suspect [REDACTED] she wanted some "space" regarding their relationship. She also stated Suspect [REDACTED] left Orange County on Saturday (January 09, 2016) to look for employment in the San Fernando area. She said he grew up in that area. She knew Suspect [REDACTED] to be sleeping in his car on Saturday.

Ms. [REDACTED] told Detective [REDACTED] Suspect [REDACTED] told her he had a bad childhood but he never mentioned the name of his mother or his sister. She said she does not know where they live or if they are alive. Ms. [REDACTED] confirmed Suspect [REDACTED] attempted suicide while in prison. She said he had a scar on his arm as a result of the attempted suicide.

This investigation is continuing, with additional supplemental reports to follow.
